EDITO

The annual Paddler's Buyers Guide, produced by KS Publishing in collaboration with the Paddle Sports Show, the international paddle sports trade show, is the early January rendez-vous not to be missed for paddle sports gear-addicts worldwide.

With hundreds of product highlights, the gear pages reflect what was seen at the Paddle Sports Show and showcase what is available on the market in all segments of the paddle sports family, be it racing, sea kayaking, foil sports, outrigger canoes, kayak fishing, inflatable, whitewater, canoeing, stand up paddling ... You name it, we have it in some form.

On top of exciting new gear is an analysis of recent trends and predictions for the market evolution from the KS publishing editorial team and some of the finest industry professionals. They often see what is around the corner before most. Their informed perspectives help brands and end consumers consider current topics, helping to set the tone for what should happen in the coming years and shape a future the paddling industry is willing to work for.

Discussing market evolution and forecasting tomorrow's paddle sports trends are also goals of the Paddle Sports Show, which hosts numerous conferences, talks, and presentations alongside community gatherings and new products from industry leaders and upcoming brands.

This year, P2S—The Paddle Sports Show— saw a great wave of optimism despite the challenging economic situation of all industry players chasing the aftermath of the Covid boom. Sales may still be below predictions or all-time highs, but hope is the word.

"HOPE IN OUR CAPACITY TO MOVE FORWARD, TO WITNESS OUR SPORTS REACHING NEW LEVELS OF VISIBILITY, ACCESSIBILITY, AND IMPACT ON PUBLIC CONSCIOUSNESS."

Hope in our capacity to move forward, to witness our sports reaching new levels of visibility, accessibility, and impact on public consciousness. The hope needed to create industry-wide virtuous circles, making our production greener and reducing our environmental footprint. Hope for continued innovations in products and technologies. Hope to include even more people in the magic of paddling. Hope to help inspire the next era of evolution in our respective disciplines and industry as a whole.

We extend what has become the global paddle sports gear bible, the annual Paddler's Buyers Guide, to share the goodwill, optimism, and sense of community we felt so strongly in Strasbourg. These pages are, as ever, free of charge in the hope that they further spread the love and joy of paddle sports and highlight the efforts of those working so hard to secure our future.

If we took anything away from the show this year, it was belief in the power of our community. Trust in our ability to support each other. To challenge each other to do better. To inspire growth and change while holding true to our roots. Hope is the word, but community is our

foundation. We welcome all those who find their way to these pages to take part.

Visit the Paddle Sports Show in Strasbourg, France, next Sept 24-26th. You will be able to see this all live, participate in the future of our amazing industry, and help keep the water flowing. Let the adventure continue.

INTERVIEW: DAVID BAIN – NRS X PYRANHA

There was big news at the Paddle Sports Show this year, with NRS and Pyranha announcing a new strategic partnership combining sales and marketing initiatives to expand the impact of two companies at the forefront of the global paddle sports market. This partnership will see NRS' European sales, marketing, and customer service operations move to the newly expanded Pyranha headquarters in Runcorn, United Kingdom. The two brands will collaborate on customer service, dealer visits, field events, and marketing initiatives to better support their respective retail and outfitter networks. We met with Pyranha's new Commercial Director, David Bain, to learn more.

PG24: David, Pyranha and NRS recently announced an exciting new partnership that places you in a central role—congratulations. Can you tell us more about the motivation driving this decision?

DB: At the heart of this strategic partnership is the ability of both companies, NRS and Pyranha, to increase the effectiveness of our businesses and help retailers grow theirs. The opportunity for the two brands to work together in Europe allows us to offer the paddling community a gold-medal standard of customer service and availability alongside industry-leading product lines.

PG24: You have been NRS since its beginnings in Europe. What will your position be at Pyranha, and how will your new role impact your responsibilities with NRS?

DB: Whilst my title has changed from NRS European Sales and Marketing Agent to Commercial Director at Pyranha Mouldings, I have one job, and that is to support our team (which now includes a few key—and wonderful) people at NRS, our product lines, and our customers at Pyranha. My role as Commercial Director includes

**“BILL PARKS OF NRS AND
GRAHAM MACKERETH BUILT
COMPANIES FOUNDED IN
TEAMWORK AND A STRONG
PASSION FOR PADDLING; A
HOME TRUTH AND LESSON
THAT IS STILL HELD CLOSE TO
EVERYTHING WE LOOK TO DO.”**

overseeing this strategic partnership, and the obligations that Pyranha has. I'll continue working closely with NRS USA to maintain the global vision for NRS and guide NRS Europe with the support of Pyranha's dedicated teams of paddle sport-loving people.

PG24: There is no better person to take on this role, given your experience in the industry and longstanding relationship

with both companies. What are your thoughts on the partnership and what it can achieve?

DB: Thanks for the vote of confidence! I certainly think the partnership is a smart move; bringing these two leading companies together is too good an opportunity to be missed. It's an exciting new chapter, and I'm thrilled to take on the role of Commercial Director and continue working with two brands that have known me since the age of 15. It's nice to think I have something to offer both Pyranha and NRS and can help make this partnership possible. What lies ahead is incredibly promising, and I am genuinely excited about the future of paddle sports. More people are embracing the water than ever before, and working with two companies

that will help shape that future is a privilege. With that said, this partnership is about much more than the excitement or vision of any one person.

PG24: What is the single biggest advantage you see to this strategic partnership?

DB: Expanded teams of experienced and dedicated paddle sports lovers in charge of customer service, sales, and marketing, all operating within the European time zone, focused on the needs of the European market. We hope this additional support gives retailers the confidence to work with NRS and Pyranha to support their businesses and commercial success. Anything else that happens along the way is all good and part of the adventure.

PG24: Will some of the Pyranha staff now be working for NRS, or will NRS customers be working with Pyranha staff?

DB: Pyranha will provide all the support services traditionally required, overseen by me. We have made team adjustments to accommodate this and improve the buying and selling experience for existing NRS customers.

PG24: Will NRS and Pyranha also be sharing distribution channels or collaborating on other initiatives?

DB: No, there is no distribution arrangement. NRS and Pyranha will continue to send products through their own channels, and NRS will continue to store and distribute products out of the Netherlands. The partnership only extends to aspects that involve communications, relationships, and building reliability for our customers: Sales, Marketing, and Customer Service activities. Again, the distribution of the two companies and the invoicing remains completely separate.

PG24: What will be the added value for end consumers and paddlers?

DB: By improving our availability, communications, and service, retailers will be better positioned to support the end consumer with the Pyranha and NRS products they love. Of course, we also love to attend events and spend time on the ground —after all, most events involve paddling—and hope to support as many as possible, the real benefit to paddlers on the ground will be led by our retail and commercial partners.

PG24: Will this collaboration increase access to new markets?

DB: Both NRS and Pyranha are committed to supporting our vast network of existing retail outlets, be it within the outdoor recreation, specialist paddlesport enthusiasts, or commercial use markets. Retailers are the foundation for a strong industry, and our support is unwavering. That said, we know there are areas where we can improve our distribution through availability and product suitability, and of course, evolving how we support these key geographical and market areas is critical for the future.

PG24: Is there a chance we'll see NRS distribute Pyranha products in North America in the future?

DB: Pyranha US has been hugely successful, and is an integral part of Pyranha's business. Chris Hipgrave, Mike Patterson, and the entire US team have been key to this success. We don't see any changes to our US distribution in the pipeline— although we have some hugely exciting developments led by Pyranha US for Canada, which will make boats far more readily available to the paddlers we know have been longing for our Pyranha and P&H ranges.

PG24: How do you see the values of Pyranha and NRS aligning, historically and in terms of goals for the future of the European paddle sport market?

DB: NRS and Pyranha, while many miles apart, have many similarities. Bill Parks of

NRS and Graham Mackereth built companies founded in teamwork and a strong passion for paddling, with an ethos to create industry-leading products and put the community first. This home truth is still held close to everything we look to do. Both companies are always looking to improve the sport for the people in it, including the NRS and Pyranha employees who enjoy their spare time on the water. Both brands already serve retailers across Europe, and share the goals to always support customers to the best of our ability and bolster the industry with community empowerment and the very best products on the market.

PG24: NRS and Pyranha have traditionally promoted sustainability initiatives, community events, and environmental non-profits. Will this remain a focus in the future?

DB: Absolutely. Supporting NGO partners, be they environmental or community-focused, is supporting the industry we love. Whilst cash injection is incredibly important for NGOs to operate, the partnership will also allow us to use our vast communications channels to amplify our partners' messages, hopefully allowing them greater impact and success with their goals.

PG24: So, what is the plan for 2024? What is the long-term goal for NRS, Pyranha, and for this new partnership? How do you feel about the future?

DB: The last few years have been a rollercoaster for our industry, with highs and lows. We see a bright future, though, with a strong industry that we are grateful to be part of. This dynamic environment is what makes working in paddlesports exhilarating. As we enter the 2024 season, Pyranha and NRS will continue launching groundbreaking products—lots are in the works already!—and using this partnership to improve paddler experiences and enjoyment on the water and off.

PG24: Is there anything you hope to achieve as Commercial Director?

DB: As Commercial Director, my attention is consistently directed towards creating a business that enhances the overall experience of those who spend time on the water in our products and contributing to the growth and sustainability of our own business, and the paddle sports industry as a whole. My core

focus remains supporting Pyranha in all we do, while looking critically at how our business can actively support and contribute to the paddle sports community, whether that's overseeing the success of this partnership, collaborating with non-profits to dismantle entry barriers within our sport, engaging in environmental initiatives, participating in events that ignite enthusiasm within the industry, or crafting a diverse range of products to meet the varied needs of paddlers.

PG24: Does that mean you are on the hunt for new staff?

DB: The hunt, maybe not, but we are always keen to hear from people who want to partner or work with us, from a young ambassador, which is where I began with both brands, to anyone who feels like the paddle sports industry is the right place for them and their future. You know where we are.

“AT THE HEART OF THIS STRATEGIC PARTNERSHIP IS THE ABILITY OF BOTH COMPANIES, NRS AND PYRANHA, TO INCREASE THE EFFECTIVENESS OF OUR BUSINESSES AND HELP RETAILERS GROW THEIRS.”

ONE STEP CLOSER: CREATING A VIRTUOUS CIRCLE

Can paddle sports create a dealer-based system where used and end-of-life gear are recycled into usable materials?

For all our efforts toward sustainability, the paddle sports industry exists alongside an ugly truth. We leave a massive environmental footprint, from plastic waste and carbon emissions transporting and manufacturing goods to products whose life cycle ends, more often than not, at a landfill. Rather than accept this as fact, more are asking: What are we going to do about it?

Production and design

This year at the Paddle Sports Show in Strasbourg, there was growing interest in creating an effective "virtuous circle," with brands and dealers uniting to discuss pathways to recycle end-of-life products into raw materials, which can be used to create new items for purchase. Topping industry-wide advances in sustainable construction and design was Peak Paddlesports' "Circular Ready" line and concept, products designed to be deconstructed and returned at the end of life to usable raw materials rather than a landfill. It's an exciting taste of what the future could hold.

Collection and processing

One solution to facilitate recycling end-of-life products involves dealers as intermediaries who can collect and return items to manufacturers or send them to exter-

nal partners. Discussion at the Paddle Sports Show made it clear that placing the dealer in a central role adds value for manufacturers and dealers alike. In addition to strengthening existing networks and relationships, a dealer-based solution has the potential to drive sales and encourage repeat business as customers return used products and buy new ones. Additionally, the more participation in such a system is celebrated or rewarded, the more not partaking risks damaging reputation and sales.

"THE QUESTION IS NOW LONGER HOW MUCH THE EXTRA COST WILL BE... THE QUESTION IS HOW MUCH LONGER CAN WE—THE PADDLE INDUSTRY—ESCAPE OUR RESPONSIBILITIES?"

"Consumers increasingly value longevity and eco-resilient manufacturing processes and materials and recognize the detrimental environmental effects caused by products that routinely need replacement," points out Jason Eccles, President of Aqua Bound and Bending Branches. This realization has led to new technologies for Aqua Bound, including their Lam-Lok™ blade construction, as seen in Strasbourg.

RTM & Dag Kayaks have been recycling old boats and plastics wastes for some years now, as have others in the industry.

Another benefit to using established dealer networks is an accelerated pathway to reduce plastic waste. Introducing reusable transport bags for boards and kayaks that can travel between dealers and manufacturers or be used to collect products for recycling "could reduce plastic pollution by five kilos per kayak," asserts Bob Timms, who helped lead and organize the "The Virtuous Paddle Sports Recycling Chain" conference at the 2023 Paddle Sports Show.

Brands such as Rab, The North Face, and fashion giant H&M have initiated similar systems with take-back boxes available at limited retailers. Others, like Teva, accept products via mail, covering the cost of shipping to recycling partners or rewarding customers with credit towards future goods. "Lots of (paddle sport) manufacturers have these initiatives, but they're not being recognized enough," points out Lotta Lettmann.

Currently, Peak's Circular Ready line can be returned to Peak Paddlesports in person or via mail. Peak will separate the components and send them to their recycling partners for processing. Many kayak companies, such as RotoAttivo, Lettmann, and Liquid Logic, offer recycling options for boats made of LDPE and HDPE. "Not Sure What to Do with Your Trashed Boat? Let Us Recycle it!" exclaims Liquid Logic's website. "Return your old kayaks and canoes to Roto. We can recycle them and produce new products. You will save nature and receive discounts," promotes Roto.

Still, "most paddlesports products are currently not easily re-purposed by the manufacturers," reminds Palm Equipment Marketing Manager Paul Robertson. Rather than having manufacturers invest in building facilities, partnering with third parties who can help separate parts and transform them for their next phase of life seems prudent—and a great place to start.

Further inspiration can be found in the success of ski giant Technica, which has collected and upcycled more than 4000 pairs of ski boots since launching the "Recycle Your Boots" program in 2021. Retailers played a crucial role in Technica's success by raising awareness of the campaign and collecting boots, later delivered to a collection center in Italy via a dedicated transportation system. The collected boots are broken down into useable raw materials and sent to different partners for use in various products, from ski boots to crash pads.

A perfect solution? Maybe. Maybe not. Having manufacturers cover the cost of recycling or transportation to recycling centers effectively gives dealers larger margins. However, fully shouldering the cost of getting heavier, bulkier items to appropriate recycling facilities "would raise the price and drive down profitability or make some items less desirable," cautions Miha Rausl of Sipa Boards. The burden on the manufacturer could be significant, especially considering the potential added cost of sourcing recyclable materials and modifying product design without sacrificing quality. Creating incentives and making the system as convenient as possible remain important, from facilitating collection networks to reduce the cost of transporting and processing goods to convincing consumers to pay more for items that do good and manufacturers to take responsibility for the lifespan of their products.

But make no mistake. The question is no longer how much the extra cost will be, nor is cost an excuse. The question is how much longer can we—the paddle industry—escape our responsibilities? The Earth is at a critical juncture. Even with advances in sustainable materials and support for environmental initiatives, the paddle industry's impact on the planet is undeniable, and people are starting to notice. We need to initiate change now. Before our "ugly truth" and environmental impact drive customers away or turn them against us. Before we no longer are seen as promoting and protecting the outdoors but polluting them. Before we are seen not as proactive, but as unable to act.

"MOST PADDLESPORTS PRODUCTS ARE CURRENTLY NOT EASILY RE-PURPOSED BY THE MANUFACTURER."

The ultimate goal is to create a true virtuous circle, where everything we produce is 100% "green," made from sustainable materials that can be recycled and repurposed so that nothing ends up in a landfill. It is not as impossible as we think. The industry has already taken steps toward reaching this goal as individuals. The next step requires collective effort and a strong network of dealers and manufacturers. It's a big job, but the first step is to start. The cycle may evolve as we develop new technology, but we will always need to finish what we started and take ownership of our mess. There is no alternative for the planet or the paddle sports industry. Who's in?

FROM BIG WATER TO THE BIG TIME

With increased visibility for paddle sports in mainstream arenas comes surprising new opportunities and potential.

Lately, paddle sports are visible everywhere you look. Celebrities do it. Paddleboards, kayaks, and canoes feature in advertisements ranging from trucks and alcohol to life insurance and financing family vacations. Instead of needing a specialty store, entry-level products are sold at the supermarket.

It's undeniable that paddle sports have reached the mainstream, becoming synonymous with an adventurous lifestyle. It's a development that benefits the entire industry. The more visible paddle sports become, the more paddling culture seeps into the public consciousness, laying the foundation for good things to come that go far beyond participation numbers alone.

"We have the interest of the masses; now we need to convert that interest into passion," says NRS CMO Mark Deming. For Deming, passion doesn't need to dominate a user's outdoor life. Even holding one-third of a person's time, attention, and budget places paddlesports in a position to compete with snow sports, cycling, climbing, backpacking, etc. "Essentially, our job is to make paddling a third of an outdoors person's recreational mix, a third of their garage or gear closet, a third of a person's spending on gear."

With paddling's increasing popularity and visibility comes new avenues for revenue and the chance to broaden brand reach with crossover and lifestyle goods, from base layers to accessories and changing ponchos. According to *The Daily at Outdoor Retailer* in February 2023, while hard goods sales are down, sales of water sports accessories such as booties, helmets, gloves, and hoods are up. Dry gear sales also showed a significant increase, combining for millions in sales.

Just as boardshorts brought surfing's sun-soaked, laid-back style to the larger world, items iconic to paddling culture, whether sun hoodies or dry bags, are finding homes on dry land. Take Teva, whose flagship sandal originated on the Grand Canyon of the Colorado River, and who used the ethos "freedom to roam" to become a globally-recognized footwear brand. With surf companies like Roxy and RipCurl successfully bridging the gap between core surf culture and mainstream fashion, it stands to reason that paddling brands are poised to do the same, selling not just technical gear but paddling lifestyle and culture.

It's not just paddling; the entire outdoors is having a mainstream moment. Fleece has become fashionable. Metal water bottles are everywhere. Gucci collaborated with The North Face, and Prada recently partnered with Red Bull (who has their own fashion label, Alpha Tauri) to make whitewater kayaker Aniol Serrasolses' descent of waterfalls flowing off the Svalbard glacier possible—a feat shared on major international news channels.

As mainstream news, Aniol's feat inspired awe on a global scale. The Svalbard Project, which was partly inspired by climate change and the rapid melting of the glaciers, showcased another benefit of mainstream exposure. The more people see paddling, the greater the platform for the environmental issues our waterways face, whether or not that exposure drives people to paddle or drives sales.

"THE MORE VISIBLE THEY BECOME, THE MORE PADDLING CULTURE SEEPS INTO THE PUBLIC CONSCIOUSNESS, LAYING THE FOUNDATION FOR GOOD THINGS TO COME THAT GO FAR BEYOND PARTICIPATION NUMBERS ALONE."

As exciting as it is to see missions like Svalbard featured on mainstream news channels, the extreme side of paddle sports is often more intimidating than encouraging. To truly capitalize on this exposure and drive more people to try paddle sports, we need subtler, smaller promotions that make anybody feel they could enjoy a day out on the water—no glaciers needed. Getting everybody, anybody, to think about trying paddle sports will be the true mark of making it to the mainstream.

While some still confuse "paddle sports" with pickleball, we've come a long way. The foundation is there for continued growth, and it's hard not to be optimistic about the future. Our community is growing, welcoming a wider variety of users. Our gear is improving in comfort and technical performance, and our exposure is helping more people than ever realize paddling exists—and it's fun! Sure, no matter how many advertisements feature paddling, the inherent risk of watersports means it may never be seen as accessible as hiking or biking for the majority of outdoor enthusiasts, but this isn't necessarily a disadvantage.

The allure of paddle sports lies in the spirit of exploration, celebrating the beauty of nature, embracing the freedom of the outdoors, and connecting to something bigger than ourselves. With only a few strokes, paddling takes you truly somewhere different, allowing access to the heart of nature even in the midst of a major city. It's why paddling—SUP, sea kayaking, whitewater, even casual touring—now often stands in for the idea of adventure rather than hiking, biking, or even surfing.

Whatever comes of our increased visibility, be it more paddlers, new opportunities for revenue, or global brand domination, to be an accepted, normalized outdoor activity promoting a passion for the outdoors while empowering adventure and the protection of our wild places in the public sphere is a milestone worth celebrating.

At NRS, you'll find passionate rafters, whitewater kayakers, sea kayakers, stand up paddlers, kayak anglers and fly fishermen whose lives and livelihoods are intimately connected with water. Our future depends on healthy waters where our customers and we can recreate, recharge and reconnect with nature. With that being said, we realize that access to paddling is a privilege and that too many people around the globe either do not have that same access or do not feel welcome to recreate on our public lands and waters. Beyond fighting to keep our important places wild and free, we've also committed to breaking down the barriers to the outdoors, in hopes that our important places are truly enjoyed by all. This is a long-term, sustained effort aimed at building strong, durable relationships with those out there doing the hard work to make lasting change. We're proud to work with a growing group of people and organizations, to continue to hold ourselves accountable and keep integrating these stories into the fabric of our company and community.

EMBRACING E-VOLUTION

With more options and better paddle-assist technology, there couldn't be a better time for paddle sports to embrace the E-revolution.

Paddle sports have long given a way to be in nature's thrall, to find that magic moment where all that matters is your next stroke. When it is just you and the water, the only sound a huff of breath and the echo of a paddle's cadence. Lately, there is a new sound: a gentle hum and buzz as paddle sports rapidly embrace an E-revolution.

The growing interest in paddle-assisted technology was evident this year at the 2023 Paddle Sports Show in Strasbourg, France, as increasing numbers of brands joined established pioneers in exhibiting refined designs for motors large and small. Czech company eMOGI showcased the recreational and rescue benefits of their composite Aluki kayak. F-One debuted their new e-fin and spoke of developing technology that would allow the motor to gauge when assistance was needed. Bote Boards blend the power of a motorized fishing boat with a stand-up paddleboard feel in their Micro Skiff line, while Native Watercraft's award-winning Propel TitanX comes "electronic-ready," recognizing that the ability to add a motor makes kayak fishing accessible for even more anglers.

Brands such as Take Outdoors, Coastco, and SIPA Boards have long recognized the potential of motorized paddleboards and kayaks and have already put work into developing innovations. As electric technology continues to improve, this corner of the market will only grow, bringing greater versatility, appeal, and adaptability to all paddle sport disciplines. Among those set to benefit most? The young, the elderly, and those who lack the skill or fitness to handle the physical demands of paddling, from changing conditions to upper body strength.

"It {motorized paddle sports} democratizes paddling and allows people of different ages, abilities, and fitness levels to enter, participate, and grow their skill sets," says Miha Rausl of Sipa Boards. Paddle-assist technology makes hauling gear or kids easier and enables safer and more enjoyable paddling experiences for people with disabilities or limited mobility, including older adults. This increased accessibility provides a critical access point as the industry looks to diversify further, targeting those who currently find paddling too difficult or daunting.

"I think it {paddle-assistive technology} can be a good upsell or add-on and bring in more users and new customers into the sport for sure, especially those willing to spend more for more luxury and convenience on the water," says Graham Ketcheson of Kayak Distribution. Given battery systems can cost as much as a boat or board, paddle-assistive technology is a much-needed boost when sales are tough.

"If it makes being self-powered less intimidating for people to get into it {paddle sports}, I see it as a plus," says Jackson Kayak Marketing Director Emily Jackson. It's worth remembering that not all users need to purchase boats or boards. The higher cost and current novelty factor of motorized paddle sports may drive business to rental shops, tour services, and retailers.

"In the US, e-bikes are outselling classic bikes by huge margins," continues Miha. "A little bit of boost can make a huge difference and with uphill cycling now becoming a thing for families, the industry is starting to boom." Equally intriguing are

"AS ELECTRIC TECHNOLOGY CONTINUES TO IMPROVE, THIS CORNER OF THE MARKET WILL ONLY GROW, BRINGING GREATER VERSATILITY, APPEAL, AND ADAPTABILITY TO ALL PADDLE SPORT DISCIPLINES."

opportunities for those looking to go further or faster. For the fitness-inspired, the power boost doesn't change how hard you work, only how far or fast you can go within a given timeframe.

Despite the versatility and appeal, conflict in the cycling industry indicates that not everyone is equally entranced. For all the advantages, e-powered paddle craft detracts from what many feel lies at the heart of their paddling discipline: A retreat to nature, the ability to be truly present, to connect with the elements.

"For Starboard, our core and focus is on using the energy of the wind, wave and your own strength to promote an active lifestyle. We have not moved into E-drive related products as it doesn't fit with our core principles and we feel it detracts away from the authenticity of our sports," explains Starboard SUP Brand Manager Ollie O'Reilly.

Though e-technology will attract new users, more paddlers also mean a greater impact on our waterways and access points, whether trash, noise, or crowds. Other concerns center around the experience of other users and environmental impact. An advantage of non-motorized kayaks and paddleboards is the ability to navigate sensitive ecosystems with minimal disturbance and harm to aquatic environments.

Whether the joy paddle sports bring feels compromised or complemented by electric-assisted technology, it won't go away any time soon—or at all. Rather, expect innovations in user-friendly designs, lighter-weight materials, and longer-lasting batteries. As e-technology improves, it will continue to drive interest in paddle sports, bringing much-needed numbers and a broader range of participants. However, as numbers grow, so does the need for infrastructure and education on best sport practices so that making paddle sports more inviting doesn't isolate those already here.

All are entitled to time on the water, no matter how they access it. Making paddle sports accessible and enjoyable to as many as possible should always be the ultimate goal. In this sense, E-technology is a gift we are ready to embrace.

INVEST IN THE FUTURE

Rather than dismiss youth gear as “not cost-effective,” brands are realizing that making paddle sports accessible to kids is worth the risk.

Want a sport or habit to stick? Start young. Or so the saying goes. How many out on the water wish they had been introduced to paddling earlier? Ironically, ask those who began young about their early days on the water, and you'll likely hear “cold,” “awkward,” and “uncomfortable.”

Generally speaking, the kid's market has been considered too small, too risky, and not cost-effective enough to merit significant attention or development. Few parents were willing to invest in expensive, specialized items for children that would outgrow them quickly. Rather than bring their kids on the water, many let paddling fall by the wayside in favor of more “family-friendly” activities.

Recently, that has begun to change, with more brand owners becoming parents and families flocking to paddle sports in search of a fun outdoor activity for the whole family. More, an entire generation of active paddlers are becoming parents who want to share their passion with their kids—and they need gear to do it.

Call it selfish or smart; you don't have to be a parent to realize this is a market worth investing in. “Our growth and future depend on youngsters getting into the sport. The products they're using play a huge part in their first impression and experience,” acknowledges Lotta Lettmann, the third generation of a paddling family and Marketing Manager for Level Six. Paddlers know paddling is a great way to create core memories and explore personal limits and new destinations. Parents know a happy kid equals a happy parent. Gear that is comfortable and fits well goes a long way toward facilitating fun on the water, making everyone more likely to want to repeat the experience. “I think having gear that fits makes parents more comfortable taking kids on the water,” says Jackson Kayak Marketing Director and mom of two Emily Jackson.

While most youth will start by sharing a boat or on the board with parents, investing in equipment kids can paddle themselves adds to the fun and is critical for skill development. “Offering gear better suited to children/smaller paddlers encourages independence and participation from a young age. In seeing my four-year-old son's

“AN ENTIRE GENERATION OF ACTIVE PADDLERS ARE BECOMING PARENTS WHO WANT TO SHARE THEIR PASSION WITH THEIR KIDS—AND THEY NEED GEAR TO DO IT.”

eyes light up when he first held a 'tiny canoe paddle,' I witnessed a shift in his realization that paddling is something he can actively engage in, says Luanne Koubsky, Creative Lead at Aqua Bound & Bending Branches.

Consider bikes and skis: Starting your kid out with a too-big bike or ski boots/skis is so clearly detrimental to having a good—and safe—experience it is laughable. Given the number of bike and ski companies with successful youth-specific lines and the increasing willingness of retailers to diversify youth offerings, it is almost surprising there aren't already more options in paddle sports. After all, kids are the perfect target audience. “If not children, then who is athletic and adventurous?” asks Lettmann.

At the 2023 Paddle Sports Show, Soul Waterman founder Corran Addison showed off videos of his son ripping in his latest whitewater kayak design. Aztron's Tony Yeung debuted an inflatable youth racing SUP. There were kid's carbon fiber surfskis at Vadja and numerous other advancements. But youth equipment doesn't need to be ultra-elite or performance driven. “Parents mostly just want to know their kids are happy, are not exposed to huge risks; and that they are getting good value. Kids want to just have fun,” says Palm Equipment Marketing & Brand Manager Paul Robertson. “Simple, functional products,” agrees Jackson. “Medium-end is key.”

Durability and price point are crucial factors in making paddle sports accessible for families. Developing trade-in programs or gear that can grow with kids reduces the perceived cost and extends use over multiple years. Items hardy enough to hand down or sell when they no longer fit also help make investing in kid's gear less risky and more cost-effective for manufacturers and consumers alike.

“Kids kit isn't just a short-term growth strategy, it's hugely important for us all to ensure there are future participants,” reminds Robertson. Kid-specific gear lets the next generation improve at paddling much quicker and at younger ages than before, creating a healthy—and hopefully long-lasting—relationship with a brand and a love of paddle sports. It also lets the industry maintain the paddlers that are already here. “It's 100% worth the investment even if the return on investment might not be realized for a decade to come,” agrees US Sales Director Chris Hipgrave.

There is no shortage of young guns out there ripping already. At Peak Paddlesports, what started as a niche desire to share the river with his kids has evolved into something much more for founder Pete Astles. “Hopefully, these youngsters will become lifelong paddlers. Some will be future champions and river advocates, and some will become parents themselves, perhaps continuing the paddling circle for another generation.”

ONE STROKE AT A TIME: *THE SLOW(ER) BUT STEADY BEAT OF SUP*

An oversaturated market and overstocked shelves won't last forever. SUP sales are slowing, but SUP is far dead.

Over the past twenty years, SUP has taken the paddling world by storm, growing exponentially and attracting countless enthusiasts. Every year, there were more manufacturers, paddlers, and interest. It seemed too good to be true, and we knew it wouldn't last forever. Sure enough, SUP's meteoric rise slowly imploded in the wake of a Covid boom, leaving dealers overstocked and the market oversaturated. But don't be fooled into thinking this is the end. While things have slowed, they have not stopped.

Like the rest of the industry, SUP brands are experiencing overstock due to Covid-induced production lags, a situation compounded by the overwhelming market saturation of entry-level boards, particularly inflatables. Yes, boards are still selling, but smaller margins and reduced prices through retailers like bigger box stores and online discounters. Increasing shipping, storage, manufacturing costs, and anticipated outcomes of the Ukrainian war and inflation further reduce margins, falsely equating less profitable with less popular.

If you look to the water, SUP appears as in demand as ever. The hypothetical debut of SUP racing in the 2028 Olympic Games has fostered the growth of clubs and developmental programs and encouraged more brands to invest in developing racing boards for amateurs and professionals. The 2023 ICF World Championships in Thailand had nearly 1000 paddlers participate, showing a thriving racing scene. The ISA Worlds also had a great turnout of new and familiar faces, as did events such as the 2023 edition of France's GlAGla Race, which attracted hundreds of paddlers, amateur and pro alike. The Molokai to Oahu numbers were up in 2023, accompanied by growing interest in SUP foil downwinding. On the surf front, seeing a SUP or two or three in the lineup at nearly any break worldwide is not even a little surprising.

"MARKET PREDICTIONS SHOW PADDLEBOARDING CONTINUING TO GROW AT RATES BETWEEN 8-10% OVER THE NEXT 5-10 YEARS."

For casual recreationalists, SUP retains its reputation as the friendliest paddle sport, versatile enough to use in more urban areas or escape crowds and head deeper into the wilderness. Despite the oversaturation of entry-level products, sales are slowly creeping back up. "Personally, we have noticed an increase in sales in the medium-low range," says Massimo Vanzin of FreeBie SRL. Others note increased interest in hard boards or more specialized designs.

Adding foil-specific products to manufacturer lineups has generated fresh interest in multiple SUP disciplines, from downwinders to riding waves. Foiling's popularity might serve as a bridge and lure users from other surf and wind sports, such as surfing, windsurfing, and kite surfing, to enter the market.

SUP is also taking off in regions outside of Europe and North America. In addition to rising interest in China and India, a 2023 report on skyquest.com identified Japan and Indonesia as the fastest-growing markets between now and 2030. "We definitely see emerging markets in Asia on the rise," agrees Starboard Brand Manager Ollie O'Reilly, pointing out that the recent ICF World Championships in Thailand, China had over 100 paddlers competing; Indonesia secured a gold medal in the junior men's category, and competitors from India, Singapore, Korea, and Japan attended. China, in particular, is pushing to encourage people to get into SUP, a strategy paying off already, with over 1,300 participants in a recent race.

Having a plethora of boards available for cheap may even prove beneficial in the long run. "Buy cheap, buy twice" is becoming a more widely adopted strategy as SUP looks to exploit an oversaturated market. "Stock will clear out and the industry will remain about 20% bigger (in terms of users) in comparison to pre-Covid," posits Miha Rasul of SIPA boards. Many of these customers will slowly start buying better products, giving the brands that survive this phase a chance to compete in developing further innovation and building brand capital.

"As manufacturers, we need to reignite demand through innovation," says Mark Deming of NRS. Recent advancements in inflatable technologies have already led to stiffer, lighter boards shaped for performance. "With woven drop-stitch materials, like NRS Z-Blend, and new manufacturing techniques, designers can work in three dimensions to create unique board profiles with specific performance characteristics," explains Deming. Innovations in technology and design, such as NRS's v-shaped hull, give the avid paddler a reason to upgrade while widening the gap between generic price-point SUPs and high-quality, high-performance boards.

Finding success in SUP has become a marathon rather than a sprint, and some brands may not survive the transition. It will take a splash of luck, a solid brand identity, active brand communication with support for athletes and events, and innovative products. But for those that do, the future is still promising. While the exact figures vary, market predictions show paddleboarding continuing to grow at rates between 8-10% over the next 5-10 years.

After all, with prices this low, there's never been a better time to try it.

DEALER PROFILE - KANUSCHULE VERSAM, SWITZERLAND

Located in the majestic "Swiss Grand Canyon" on the banks of the Upper Rhine River, Kanuschule Versam is a shop, kayak school, and rafting company. Currently celebrating 35 years in business with three passionate Swiss paddling legends behind the wheel - Marcus Keller, Kasi Felman, and Toro Rogenmoser - Kanuschule Versam is a leader on the European paddling scene. We talked to co-owner Toro Rogenmoser to learn more about KSV's ongoing success.

PGmag: You celebrate 35 years in business this year. Congratulations! How does it feel to have succeeded in your initial dream of making a living from your passion?

Toro Rogenmoser: It feels great. It's 35 Years for KSV but 25 for me; thanks for reminding me to celebrate!

PGmag: KSV is in Versam, Switzerland, near Ruinaulta on the Rhine River. What drew you to this location?

TR: The founders came here because of a great river, awesome scenery, and the unique opportunity to do train shuttles, which allows kayaking to be less motor-reliant.

PGmag: We hear the three of you still paddle all year round. Is a passion for paddling the recipe for success?

TR: Yes, we still paddle all year round, but to varying degrees. I think the recipe is to be deeply embedded into what you do: Try to be better at it every day. Know the field, know what's happening. Being passionate doesn't mean you HAVE to be on the water all the time. And focus on a specialty. For us, it's whitewater.

PGmag: Describe the nature of the Kanu Schule (kayak school). What is the spirit your programs aim to develop?

TR: We focus on whitewater kayaking and canoeing. It's born out of our hobby, and our love for the sport is also the spirit communicated. We try to teach students to be safe, passionate, and caring.

PGmag: What is the rough percentage split between all three activities—kayaking, canoeing, and rafting—in terms of revenue?

TR: Roughly, all three parts are similarly big. The difference lies more in how the revenue relates to other parameters. For example, the shop takes the biggest upfront investment (inventory), and the school needs the most human power, aka teachers. But we look at the overall package, not single numbers.

PGmag: Why did KSV expand to include a retail shop? Was it a financial necessity or a more service-driven initiative?

TR: The retail store opened in 1994, so that was a bit before my time, but it grew naturally from buying gear for ourselves to having a few items for our customers.

It started with a handful of items and slowly grew because it made sense. One constant challenge: our available space seems to grow more slowly than the inventory...

PGmag: Have you seen any lasting changes in interest and business since Covid?

TR: Overall, we are back to—quite exactly—pre-Covid, which started with a big spike in online sales during lockdowns, followed by a peak summer for rafting and courses when people could not go abroad. With the shop, we have to manage a bit of overstock. We also now stock up record-early, an holdover from when we were sold out of many items and manufacturers were, too.

PGmag: How do you approach online sales? Do most customers ship products or pick up their orders at the shop?

TR: It's around 50/50 overall. In winter, it shifts to 99% online with shipping. We are basically located on the riverbank of one of the Rhine's most paddled sections in Switzerland, so we are the drive-in of kayak shops. We even put a plastic floor in the shop because paddlers often come in dripping wet!

PGmag: Who is your clientele? Are the demographics the same for the shop, rafting business, and kayak school?

TR: Overall, we have mostly Swiss clients. Interestingly, this is also true for rafting. Our rafting clients are people of all ages, individuals, companies, and clubs/associations. In the School, we have a gap between the ages for youth camps and when young people can pay for a course themselves. Maybe it's also the age where one feels most adventurous and ready to learn by trial and error.

"I PREFER A LONG (ISH) DRIVE TO A SHOW TO SEE EVERYTHING IN ONE PLACE OVER REPS COMING TO OUR PLACE TO PRESENT NEW PRODUCTS."

PGmag: Do any recent innovations excite you?

TR: For me, there's a stark contrast between the development in boats vs. gear. For boats, there's the shift in the predominant type/discipline to the current half-slice craze, but also big trends and changes within the disciplines, which really are exciting. But I am disappointed with the development of gear. The dry suit took over, but apart from that, I mainly see fashion-type

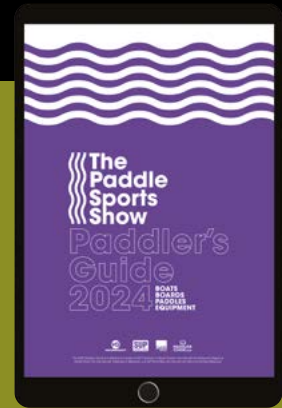

changes rather than technical improvements. That may help something sell better, but it makes it harder for shops. Slight changes and fancy new names for colors and color schemes make for a lot of unwanted work in inventory and web software. I am more interested in practical features: Safety/visibility, wet-weight (how heavy am I after a swim?), durability, usability; these innovations may exist but aren't being promoted as much.

PGmag: We've seen you every year at the Paddle Sports Show and for 15 years before that at PaddleExpo. Will we see you again in Strasbourg?

TR: You will. Tradeshow are important. I prefer a long(ish) drive to a show to see everything in one place over reps coming to our place to present new products. I also like the social part of meeting people from the business and people I used to see in eddies. It's important to us to have one show, and not several different ones. We're happy that our entire whitewater niche is represented in one show.

BOATS

Whether exploring inland waterways such as lakes and rivers, quiet ponds or raging torrents, or navigating the open sea, there is a boat for every adventure. The original paddle sport vessel, each watercraft features shapes and styles designed for a different function but the same purpose: traveling on water. For as Kenneth Grahame's Water Rat said to the Mole: "Believe me, my young friend, there is nothing—absolutely nothing—half so much worth doing as simply messing about in boats."

Length: 180 cm/5'9" | Width: 61.7 cm/24" | Weight: 10 kg/22 lb | Max. Cap.: 50 kg/110 lb | Material: LDPE | Colors: Sage . Midnight Storm . Mars . Mint Green . Paradise Blue . Orange Camo . Marine Camo . Orange . Snow Camo . Graphite . Jungle . Black

OFFICIAL.GALAXYKAYAKS.EU

RTM - MAKAO

The MAKAO is the new RTM brand's top single-seater sit-on-top kayak. This new kayak is stable, comfortable and suitable for all types of paddlers, beginners or experienced.

Length: 273 cm/8'9" | Width: 79 cm/30" | Depth: 36 cm/13" | Weight: 22 kg/48.5 lb | Capacity: 1 person | Max. Cap. 140 kg/308 lb

RTMKAYAKS.COM

RTM - DISCO +

Its tapered lines and glide particularly appeal to female kayakers. The Disco + is self-draining and has a storage space located at the stern, equipped with a deck net and able to hold a watertight bag or canister up to 24 L. This model is particularly designed for kayakers from 60 to 80 kg. The Disco handles very well on rough seas.

Length: 428 cm/14'0" | Width: 65 cm/25" | Depth: 33 cm/12" | Weight: 23 kg/50 lb | Capacity: 1 person | Max. Cap. 120 kg/265 lb

RTMKAYAKS.COM

RTM - MID WAY

The MID-WAY combines the performance of traditional sea kayaks (glide, speed, technical qualities) with the advantages of a roof seat (self-draining, safety, ease of use). It allows you to hike from one to three days. It has a watertight compartment at the front and a rear storage space for a 24 L watertight container. This rear area can accommodate a scuba diving tank.

Length: 273 cm/8'9" | Width: 79 cm/31" | Depth: 33 cm/14" | Weight: 22 kg/48 lb | Max. Cap.: 130 kg/287 lb | Material: HDPE

RTMKAYAKS.COM

RTM - TANGO EVO

The TANGO becomes TANGO EVO, with a redesigned deck, two integrated side handles with a folding polyethylene backrest. New polyethylene files are mobile: Once lowered, the kayaks can be stacked. The folders are automatically lowered by dragging the kayak from the back to the front. Featuring a flat-bottomed, bowed hull, the Tango EVO is designed for navigation in rivers, lakes and calm seas. It has a large loading capacity and a large storage compartment. It is really adapted to large sizes.

Length: 351 cm/11'5" | Width: 78 cm/30.7" | Depth: 34 cm/13.4" | Weight: 26 kg/57 lb | Capacity: 1 person | Max. Cap.: 140 kg/308 lb

RTMKAYAKS.COM

ISLANDER KAYAKS - KOA SPORT

A playful kayak for a day at the beach or an easy paddle discovering a local waterway. The Koa sit-on-top is lightweight and compact; it's so easy to handle on or off the water, with space and comfort for all the family. But don't be fooled, the Koa cuts smoothly through the water and jumps easily over the surf – you'll feel the performance of a much bigger boat.

Length: 258 cm/8'4" | Width: 74 cm/28" | Height: 35 cm/13" | Weight: 16 kg/35 lb | Max. Cap.: 115 kg/253 lb | Material: High-Density Polyethylene | Colors: Coral . Atoll . Reef

ISLANDERKAYAKS.COM

RPI KAYAK - TIBOU

The TIBOU is a sit-on-top kayak specially designed for children or smaller paddlers. It is stable, safe, directional, and maneuverable.

Length: 272 cm/9'0 | Width: 65 cm/25.6" | Weight: 16 kg/35.3 lb

POLYROTGROUP.COM

RPI KAYAK - ZYMBRA

The ZYMBRA is a self-bailing single-seater kayak made of high-density polyethylene for adults and larger people. The Zymbra is recommended for rental companies because it is sturdy, stackable, and comfortable.

Length: 345 cm/11'4 | Width: 86 cm/34" | Weight: 35 kg/77 lb

POLYROTGROUP.COM

RPI KAYAK - LIFY

The Lify is extremely stable and maneuverable. This kayak is the perfect choice for paddlers who want to go fishing or just hang out. A large boat for medium and larger paddlers, with loading facilities.

Length: 246 cm/8'0 | Width: 74 cm/29" | Weight: 20 kg/44 lb

POLYROTGROUP.COM

RPI KAYAK - SALAMBO

The Salambo is long, light, and fast. The Salambo has increased storage capacity thanks to a large storage space in the back and a large loading capacity. Bring along bags, drums, diving equipment, you name it.

Length: 345 cm/11'4 | Width: 70 cm/27.5" | Weight: 26 kg/57.3 lb

POLYROTGROUP.COM

RPI KAYAK - TRILIA

The sit-on-top kayak is the most famous kayak shape in the world. You can navigate alone, with two or three people on the sea, lake, or river. It is very compact, light, fast, and easy to handle.

Length: 367 cm/12'0 | Width: 87 cm/34.3" | Weight: 33 kg/73 lb

POLYROTGROUP.COM

RPI KAYAK - SEPTA

A very versatile and comfortable sit-on-top kayak for medium and larger paddlers. Tracks well and easy to steer; perfect for sea and lake trips. Easy to transport and store.

Length: 410 cm/13'6 | Width: 70 cm/27.5" | Weight: 30 kg/66 lb

POLYROTGROUP.COM

RPI KAYAK - LATCHA

The LATCHA is a long-time favorite of surf kayakers. This fairly maneuverable and stable kayak is a real "beach toy" in calm water and is the perfect sit-on-top for family fun. When surfing, it is very fast. An affordable choice for beginner surf kayakers or recreational paddlers.

Length: 246 cm/8'0 | Width: 74 cm/29" | Weight: 20 kg/44 lb

POLYROTGROUP.COM

RPI KAYAK - BICHI

An easy-to-paddle, stable, and comfortable kayak with a gull-wing hull that makes it fast and even surfable! Features a reinforced keel; this kayak is very versatile for sea, lake, and river trips.

VENTURE KAYAKS - FLEX

A lightweight, reassuringly stable, and easy-to-use kayak. As the name suggests, the Flex is designed for flexibility, allowing you to explore canals, take short coastal trips, enjoy a tranquil day on the lake, or float along gentle rivers; all in one kayak that's easy to paddle, transport, and store.

Length: 330 cm/10'8" | Width: 65 cm/25" | Weight: 23.5 kg/51 lb | Max. Cap.: 120 kg/264 lb | Material: MZ3 (HDPE) | Colors: Lizard Green . Fuego Orange . Tahoe Blue | Sizes: One Size

VENTURECANOES.COM

VENTURE KAYAKS - ISLAY 12

The Islay is uncomplicated and encouragingly easy-going - choose the 12 for easier maneuverability and storage, or the 14 for a little more speed and range. An adventure touring kayak in an easily manageable size; if you're progressing from a shorter, recreational kayak and want something with a little more speed and storage capacity for extended adventures, or if you're looking for a boat with the features of a longer touring kayak, but a little more maneuverability, the Islay 12 is for you.

Length: 385 cm/12'5" | Width: 66 cm/25" | Weight: 25.5 kg/55 lb | Max. Cap.: 124 kg/273 lb | Material: MZ3 (HDPE) | Colors: Lizard Green . Fuego Orange . Tahoe Blue | Sizes: One Size

VENTURECANOES.COM

VENTURE KAYAKS - ISLAY 14

The Islay is uncomplicated and encouragingly easy-going - choose the 14 for a little more speed and range, or the 12 for easier maneuverability and storage. A longer kayak is a faster kayak, allowing you to cover larger distances; the Islay 14 is an adventure touring kayak with a length similar to that of a sea kayak, but in a format that offers a little more stability and maneuverability. Ideal for beginners and intermediates who want to try their hand at cozy weekend adventures and relaxed journeys of up to a week in length on canals, sheltered lakes, and gentle rivers.

Length: 427 cm/14' | Width: 60 cm/23" | Weight: 26 kg/57 lb | Max. Cap.: 130 kg/286 lb | Material: MZ3 (HDPE) | Colors: Lizard Green . Fuego Orange . Tahoe Blue | Sizes: One size

VENTURECANOES.COM

VENTURE KAYAKS - ISLAY CRUISER

Smile-inducing stability and performance. An extra-large, ultra-easy-access cockpit and updated styling paired with the refined performance of the Islay hull means that the Islay Cruiser suits its name as comfortably as it suits you. Hop in, lower yourself into the spacious cockpit using the grab handle, and settle in for adventure in the luxuriously padded seat; the access and outfitting aren't the only things comfortable about the Islay Cruiser though, ample stability will keep you focused on the sights and sounds around you, whilst great straight-line tracking, easy maneuverability, and a highly efficient hull all combine for comfortable, almost effortless performance.

Length: 378 cm/12'4" | Width: 67 cm/26" | Weight: 25 kg/55 lb | Max. Cap.: 124 kg/273 lb | Material: MZ3 (HDPE) | Colors: Lizard Green . Fuego Orange . Tahoe Blue | Sizes: One size

VENTURECANOES.COM

GATZ - LABRADOR

The Labrador is a touring kayak with a balanced length/width ratio. Plenty of volume for easy and dry running even in wild water. A sporty boat with a light round frame. Maneuverable enough for small rivers, thanks to a shortened waterline on calm water, and excellent directional stability in waves.

Length: 460 cm/15' | Width: 60 cm/21" | Weight: from 14 kg/30 lb | Max. Cap.: 150 kg/330 lb | Material: various composite layups

CARIBOU - ADVENTURE 430

Caribou Adventure 430 has been meticulously crafted to cater to the preferences of novice and semi-advanced kayakers both for single and all the family. HDPE polyethylene hull ensures durability and provides forgiveness for less experienced users. The upper part of the hull meets stringent ergonomic standards, enhancing comfort. Extensive usability research revealed that the hull's design allows for extra space for paddling, maintaining stability typical of wider river kayaks. This unique geometry accelerates skill development for novice kayakers. The original Polish project was a finalist in the prestigious Red Dot Award: Design Concept 2018 in Singapore. It's a kayak without compromise, delivering outstanding value at a price. Range of versions from Club (very base) to Premium Rudder with bulkhead and baggage compartment. Adjustable or fixed zig-zag footrests. Ergonomic seats and backrests with thick, soft and durable foam cushions. Extra seat for a child with various places to install inside the kayak.

Length: 430 cm/14'1" | Width: 81 cm/30" | Cockpit height: 33 cm/12" | Weight: 39-41 kg/85-90 lb | Max. Cap.: 350 kg/771 lb | Material: HDPE

CARIBOU - ANTIA 490

Caribou Antia 490 is the next generation of sit-on-top kayaks. Antia was created keeping in mind ultimate stability and versatility. Its wide body and spacious deck are suitable for multiple-use scenarios - from family tours, and long fishing trips to guiding less skilled or even handicapped paddlers. The deck setting is fully adaptable to the needs of the crew- can be used solo, in tandem (or 2+2), or with three people. Carefully crafted nautic properties and its outstanding buoyancy make Antia a perfect choice that balances performance and safety. The Antia has two hatches and baggage compartments. Adjustable footrests and sliding, ergonomic frame seats with folding backrests. Extra seat for a child with soft foam cushion and various places to install inside the kayak. We provide also a version with an optional rudder or state-of-the-art MinnKota electric drive with GPS.

Length: 490 cm/16'0" | Width: 90 cm/37.4" | Cockpit height: 33 cm/12" | Weight: 48-54 kg/105-1120 lb | Max. Cap.: 800 kg/1760 lb | Material: HDPE

NORTIK - SCUBI SPEED

The Scubi Speed marks the Scubi's entry into the touring class of kayaks. Clear in its DNA, it's a highly mobile, elegant hybrid kayak prioritizing tracking, speed, and sporty performance. The comfortable, small backpack allows easy carrying even over longer distances. Utilizing the Nortik hybrid system technology, it seamlessly integrates with the successful Scubi family. For the new model, the technology has been further developed to achieve higher air pressure, realizing a sporty shape ideal for the after-work workout of ambitious paddlers.

FALTBOOT.DE

ZELGEAR - PIGLA 410

Comfortable, fast, light and maneuverable. A kayak you'll want to take on your next trip. The hull's refined contours produce a sleek, hydrodynamic form that sees the IGLA slice through the water. The IGLA is composed of two parts: a twin side-tube hull for a slim profile, and a removable high-pressure dropstitch floor to tension the structure and improve rigidity and glide. The side tubes are stacked one above the other with an internal partition. This arrangement not only improves longitudinal rigidity over a single side tube, but at 75 cm wide, makes the IGLA one of the narrowest IKS in its class while retaining generous internal space and excellent stability. The IGLA 410 makes a fast and spacious solo kayak, but at 4.1m long has room for two with a second optional seat. The IGLA is also suited to tandem day paddles with the optional second seat.

Length: 410 cm/13'5" | Width: 75 cm/30" | Weight: 18,5 kg/40 lb | Max. Cap.: 180 kg/400 lb
| Material: Heytex PVC 850g/m² | Colors: Blue/Black . Red/Black . Khaki/Black . Black |
Sizes: 410 . 490

HOBIE - MIRAGE ITREK 9

The lightest and most maneuverable kayak in our fleet, featuring the MirageDrive GT with Kick-Up Fins and intuitive rudder control, the Mirage iTrek 9 Ultralight can turn on its axis and navigate tight waterways with ease. Simply remove the seat and MirageDrive, grab the three-piece SUP paddle, and the iTrek 9 Ultralight is ready to be used as a stand-up platform.

Length: 287 cm/9'6" | Width: 102 cm/40" | Weight: 16.8 kg/37 lb | Max. Cap.: 160 kg/350 lb
| Material: 550 Denier PVC | Color: Seagrass Green

HOBIE.COM

HOBIE - MIRAGE ITREK 11

Built for everything from day trips to overnight escapes, the Mirage iTrek 11 inflatable kayak with perched seating is the perfect choice for any adventure. Its high-performance, lightweight construction boasts the speed, stability, and tracking of a rigid kayak without the extra weight. The iTrek 11 is fun, nimble, and lightning-fast. Powered by the MirageDrive GT with Kick-Up Fins, reaching your favorite fishing spot has never been easier.

Length: 325 cm/10'8" | Width: 102 cm/40" | Weight: 20 kg/44 lb | Max. Cap.: 181 kg/400 lb
| Material: 550 Denier PVC | Color: Slate Blue

HOBIE.COM

NORTIK - SCUBI LITE

The Scubi Lite impresses with its minimal weight (8.25 kg) and smallest pack size (90 x25 x 35 cm) but remains equipped with the proven hybrid technology of the large Scubi models. With a length of 320 cm and a sports bag format, it is significantly more compact than the Scubi 1 XL but offers similar handling characteristics with a focus on agility. These are achieved thanks to the keel structure and high-pressure air tubes. The Scubi Lite is characterized by its quick and easy set-up, offers plenty of interior space thanks to its open structure and is therefore ideal for occasional paddlers who want to go for a quick paddle after work. A deck, hatch cover and an extra high backrest are optionally available. With an entry-level price, it is a highly mobile hybrid kayak for recreational use.

Length: 320 cm/10'5" | Width: 73 cm/28" | Weight: 8.3 kg/18 lb | Max. Cap.: 110kg/242 lb | Material: Skin: PVC/PU mix . Frame: Anodized Aluminum | Colors: Red/Black . Blue/Black | Pack Size: 90 x 25 x 35 cm | Seats: 1

FALTBOOT.DE

NORTIK - SCUBI 1XL

The Scubi 1 XL is an outstanding hybrid boat that represents the best of the successful Scubi family. Since its market launch in 2016, it has not only received fantastic reviews and awards from the trade press but has also quickly become a bestseller as an "all-rounder" for larger paddlers. Weighing just 12 kg and in a compact rucksack format, it is light and mobile. The hybrid technology, innovative keel structure and open design offer exceptional performance. The Scubi 1 XL can be set up quickly and is versatile for both leisure paddling and professional tours. Numerous optional features such as a deck, skirts, steering system and sail system extend the possibilities. The trade magazines praise the premium quality and versatility of this hybrid kayak.

Length: 380 cm/12'5" | Width: 80 cm/30" | Weight: 12 kg/26.5 lb | Max. Cap.: 130kg/286 lb | Material: Skin: PVC/PU mix . Frame: Anodized Aluminum | Colors: Red/Black . Blue/Black | Pack Size: 85 x 55 x 22 cm | Seats: 1

INFLATABLE 2

OFFERING MORE STABILITY THAN PLASTIC KAYAKS AND MAKING RIVER RUNNING ACCESSIBLE TO A WIDE VARIETY OF PADDLERS.

VERANO WATERSPORTS - COLORADO DUO

Whitewater or river, surf or sea – the Verano Airboat Colorado Duo is twice as much fun. Thanks to its safe position in the water, the easy-to-manuever two-person boat is well-suited for every paddler. The removable drop-stitch floor makes the boat stiff and durable. The bilge openings on the bottom ensure that the two-person kayak always stays up, even in whitewater! The large side chambers give the Colorado enough buoyancy. This makes the Colorado Duo kayak also suitable for two large paddlers. Our inflatable kayak offers perfect value for money!

Length: 371 cm/12'2" | Width: 97 cm/38" | Height: 31.5 cm/12.4" | Boat Weight: 16.5 kg/34.4 lb | Set Weight: 23 kg/50.7 lb | Packaging Weight: 24.5 kg/54 lb | Recommended Number of Paddlers: 1-2 | Max. Cap.: 250 kg/551 lb | Material: Bottom: Drop-Stitch PVC . Hoses: PVC

VERANOWATERSPORTS.COM

WTX - RAPID WILD

New unique inflatable self-bailing whitewater canoe, up to Class IV difficulty. The Rapid Wild has a larger rocker, a higher bottom, a uniquely shaped drying sleeve, and smooth adjustment of the seat position even with knees. All this makes the boat a much faster, more agile, more maneuverable boat than you are used to from inflatable canoes. Quick draining for a drier ride, unique system of shifting the seats makes it possible to perfectly balance the boat according to the parameters of the crew (no screw, no line for seat fitting). Adding a third seat provides room for a third paddler. All three can use fixation straps - kneeling. The boat has a unique solution for fixing the pump on the stern of the boat. For carrying, the boat has four strap catches on the sides, and for pulling the boat, there are additional handles on the bow and stern. In addition, there is a rope in the bow and stern, for tying the boat, for example to a tree near the shore, or during transport. The packed boat is placed in a bag that can be carried by one person on the shoulder or in the hand as a bag, or on the back as a backpack. In two, it can be easily carried by the straps.

Length: 415 cm/13'6" | Width: 108 cm/42.5" | Weight: 23 kg/50 lb | Load capacity: 350 kg/771 lb | Max. operating pressure: 0.02 MPa [0.2 Bar/3 PSI | Dimensions of the Packed Boat: 75x45x35 (cm) | Difficulty: up to WW IV | Max. Cap.: 3 people | Material: Valmex

WTX.CZ

VERANO WATERSPORTS - CANCAN 14 NEO

NEW
2024

The CanCan Neo series from Verano Watersports is now the third generation of our drop-stitch Canadian series. The inflatable CanCan 14 Neo is not only stiff, robust and extremely durable. In the latest generation - with the same durability - the side walls are thinner than before. The fixed end caps are now soft, i.e. rubber-reinforced. Both ensure weight savings and a smaller pack size. The inflatable canoe offers space for up to three people as well as enough storage space for extended canoe tours. Nevertheless, the Canadian scores with its minimal pack size and can even be transported in the trunk. The popular 14-foot prospector is suitable for up to two adults or two adults and one child. The flat floor gives the CanCan enormous basic stability. Coupled with the stiff side walls, the canoe glides like it's on rails.

Length: 420 cm/14' | Width: 100 cm/39" | Height: 33 cm/13" | Boat Weight: 24.9 kg/54 lb | Set Weight: 32 kg/70.5 lb | Packaging Weight: 34 kg/74.9 lb | Recommended Number of Paddlers: 1-2 (+1) | Maximum Payload: 300 kg/661 lb | Material: Drop-stitch Fusion PVC

AQUA MARINA - TOMAHAWK AIR-C

Ready to go the distance! The TOMAHAWK AIR-C not only sports a stunning and modern design but is driven by performance. Our revolutionary inflatable canoe is 40% lighter than hard canoes without sacrificing delivery. Perfect for long distances with its large loading capacity, you can easily trek with 2 to 3 people and still have ample room for storage. Created for explorers, the ultra-stable and rigid long waterline is great for tracking with its molded keels. Our new AIR-C has also been upgraded to include anti-skid benches and a drop-stitch cushion to provide unparalleled comfort during paddling. This versatile two or three-person canoe is ready for your next adventure right out of the box!

Length: 478 cm/15'8" | Width: 88 cm/35" | Weight: 24.7 kg/54.5 lb | Max. Cap.: 260 kg/573 lb | Material: PVC . Drop-stitch Core | Colors: Orange

[AQUAMARINA.COM](https://www.aquamarina.com)

AQUA MARINA - HALVE

Experience our revolutionary HALVE kayak - a lightweight marvel, 50% lighter than traditional kayaks. Its sporty, urban design captivates with a futuristic allure. Enjoy remarkable stability and smooth rowing with the super large tank design and drop-stitch deck, perfect for various water conditions. Effortlessly switch between solo and tandem modes, catering to all adventurers. Crafted with innovative TPU material, it's stronger, foldable, and easy to store. Delicate, durable, and adorned with ECO-PRINT™ digital printing technology for enduring patterns. Redefine your kayaking adventures with HALVE.

Length: 398 cm/13'1" | Width: 98 cm/39" | Weight: 7.4 kg/16.3 lb | Max. Cap.: 180 kg/396 lb | Material: PVC . Drop-stitch Core | Colors: White

[AQUAMARINA.COM](https://www.aquamarina.com)

GUMOTEX - SWING 2

SWING 2 is a sit-in inflatable kayak great for relaxing trips on sheltered waters, harbors, lakes, and rivers up to Class II whitewater. The kayak is supplied with three aluminum reinforcements for improved rigidity of the hull, maneuverability, and stability. The reinforcements also shape the deck of the kayak. Thanks to its low weight the kayak is perfect for trips with frequent portages. The enclosed deck prevents water from getting in. The kayak is available in a single and a double version.

Length: 402 cm/13'2" | Width: 90 cm/35.4" | Weight: 14.5 kg/31.9 lb | Max. Cap.: 220 kg/484 lb | Material: NITRILON | Colors: Lime green . Strawberry red

GUMOTEXBOATS.COM

GUMOTEX - SOLAR

The SOLAR inflatable kayak serves for both trips on lakes and touring on rivers up to Class II whitewater. An additional foredeck (optional accessory) prevents water from flowing over the bow, and so increases the user's comfort during paddling, for example, on the sea. The kayak is equipped with a draining hole in the rear deck. The basic version of the SOLAR is equipped with two seats and fixtures for the third seat. There is a possibility to place seats in different positions. The SOLAR can be turned into a single-seat, double-seat, or triple-seat kayak.

Length: 410 cm/13'5" | Width: 100 cm/39" | Weight: 16 kg/35.2 lb | Max. Cap.: 280 kg/616 lb | Material: NITRILON® | Colors: Lime green . Strawberry red

NORTIK - SCUBI 2XL

The Nortik Scubi 2XL is by far the most versatile boat in the entire Scubi family: fast setup, excellent performance and more variable than ever before! Based on the hybrid technology developed by Nortik (reduced aluminum linkage and high-pressure inflatable tubes), the two-person version offers maximum flexibility in the way it can be used. It can of course be paddled classically by two people, but with a moveable third seat, a child of any age can ride along, and the position can be adjusted as necessary. Even an ideal solo position is possible. With extensive accessories (deck, steering system, extra high backrest, sails, dropstitch inlet) the Scubi 2XL is the boat that grows with you and is always exactly what you need!

Length: 490 cm/16'1" | Width: 90 cm/35.4" | Weight: 19 kg/41 lb | Max. Cap.: 250 kg/551 lb | Material: Skin: PVC/PU mix . Frame: Anodized Aluminum | Colors: Red/Black . Blue/Black | Pack Size: 120 x 48 x 25 cm

FALTBOOT.DE

NORTIK - SCUBI 3

The Scubi 3, the largest member of the Scubi family, offers space for three adults or two adults with up to two children. With the motto "Simply paddling: the Scubi concept", it focuses on versatility and simple assembly. The full-length keel, minimized frame and integrated hanging seats make it quick to use. The hybrid technology of air tubes and frame structure ensures good performance and high stiffness. Flexible for use by two or alone, the Scubi 3 is suitable for traveling and can be customized with accessories such as a three-person deck, steering- and even a sailing system. All in one single backpack. Robust PVC/PU material and a pre-installed keel strip guarantee durability. According to numerous product tests, the Scubi 3 is a versatile and lightweight hybrid boat that is great fun for the whole family.

Length: 540 cm/17'7" | Width: 98 cm/38" | Weight: 22 kg/48.5 lb | Max. Cap.: 325kg/716 lb | Material: Skin: PVC/PU mix . Frame: Anodized Aluminum | Colors: Light Grey/Black | Pack Size: 120 x 48 x 30 cm | Seats: 3

AQUADESIGN - RIVER TPU 230

The RIVER TPU 230 Packraft is a fully decked packraft designed for river use and capable of handling up to Class IV rapids. Its 100% TPU construction is also 100% recyclable. Its deck ensures that you stay dry in all conditions. But that's not all, as its Velcro® hatch positioned at the front of the deck provides access to the area between your legs and allows you to securely store your backpack, keeping your belongings safe from moisture during your adventure. The folded and packed packraft weighs only 5 kg, making it incredibly easy to transport and store. This packraft has two separate inflation compartments, making it twice as safe as a traditional packraft without being more cumbersome. Made with high-quality materials, the tube is constructed from 210D TPU, and the robust bottom is made of 420D TPU, 100% recyclable and repairable.

Length: 230 cm/7'5" | Width: 90 cm/ 35" | Weight: 5 kg/11 lb | Max. Cap.: 160 kg/353 lb | Material: 100% TPU | Colors: Grey/Black/Blue

NORTIK - DUO EXPEDITION PACKRAFT

The DUO Expedition PackRaft can be used by two people as well as solo. Simply install the woven seat in the centre and you have a spacious solo raft. Like all Nortik rafts in the "Expedition" series, the DUO also has two luggage bags inside the air tubes. Not having to fasten the equipment to the deck favors a lower center of gravity and reduces exposure to wind. These bags also act as buoyancy aids. An additional safety feature! The air tubes made of high-performance ultralight TPU are coated on both sides, which means that even if the outer layer is damaged, the material is still waterproof. The floor is extra-reinforced. All Nortik rafts are (as far as possible) welded and not just sewn/glued together. This is environmentally friendly and durable. The special highlight: an inflatable keel over the entire length! This improves directional stability on calm waters. Inflatable comfort seats with backrests are optionally available.

Length: 520 cm/17'1 | Width: 85 cm/33.5" | Weight: 27 kg/60 lb | Max. Cap.: 300 kg/662 lb | Material: Heytex PVC 850g/m² | Colors: Blue/Black . Red/Black . Khaki/Black . Black | Sizes: 370 . 450 . 520

NORTIK - TREKRAFT EXPEDITION WITH DECK

The TrekRaft Expedition by Nortik revolutionizes TrekRafting, a combination of trekking and paddling. Weighing just 3.8 kg and with an ultra-small pack size, it fits into any rucksack. As an affordable high-performance packraft, it expands the fascinating trend of sport for an ambitious audience. High-performance ultralight TPU, air tubes coated on both sides and an extra-reinforced bottom guarantee quality and robustness with the lowest possible weight and pack size. Versatile in use, it not only enables river and lake passages during a hike but also whitewater fun up to Class III. The Nortik TrekRaft Expedition expands the range with an innovative expedition line with luggage stowage options in the air tube. This lowers the center of gravity, reduces wind exposure and offers additional safety as a buoyancy chamber. Numerous well-known expeditions have already utilized these advantages.

Length: 230 cm/7'5 | Width: 92 cm/36" | Weight: 3.7 kg/8.1 lb | Max. Cap.: 150 kg/330 lb | Material: TPU | Colors: Yellow/Black | Pack Size: 50x25 cm | Seats: 1

FALTBOOT.DE

NORTIK - LIGHTRAFT

At just 2.1 kg, the LightRaft is a packraft for real weight optimizers and minimalists. However, this does not mean you have to sacrifice maximum fun on the water - on the contrary! The small and agile raft is a real addition to the Nortik packraft family. The "little savage" is packed in a pack sack that is more the size of a wash bag than a proper packraft. The LightRaft really does fit in everywhere and can therefore be taken with you on any occasion. The extremely light and yet extremely robust (double-sided coated!) high-performance TPU and the high-quality processing technology correspond to those of the other Nortik rafts. If the small version is enough for you, simply maximize your fun immediately with the packraft minimalist from Nortik!

Length: 180 cm/5'9 | Width: 91 cm/33" | Weight: 2.2 kg/4.8 lb | Max. Cap.: 115 kg/253 lb | Material: TPU | Colors: Orange . Dark Olive | Pack Size: 40x15 cm | Seats: 1

KOKOPELLI - ROGUE R-DECK

The Rogue is the most versatile and best-selling packraft. Weighing in at only 4 kg, and packing down to the size of a (large) roll of paper towels, it's become the standard for portability and durability. The Kevlar reinforced floor system for increased durability on the water and the 210 D TPU + Nylon sidewalls are the perfect combination of strength and weight. There are extra reinforcements in high-wear areas and a removable spraydeck. Rated up to Class II rivers, the Rogue R-Deck is now THE packraft for bikepacking, backpacking, high alpine lakes, fishing, climbing, travel, whatever you can throw at it, wherever you can throw it.

Length: 229cm/7'5 | Width: 94 cm/36" | Weight: 3.6 kg/7.9 lb | Max. Cap.: 100kg/220 lb | Material: 210 D Nylon TPU | Colors: Smoke Blue . Yellow

NORTIK - ARGO 1

The Nortik Argo, named after Argonauts' fast ship from Greek mythology, is a versatile touring kayak. As a large tourer, it offers sportiness, stability and robustness. At 5.20 meters long and 62 cm wide, the Argo offers more volume, even for stronger paddlers. The robust PVC/PU skin, the pre-installed keel strip and the anodized aluminium frame make the boat durable and lightweight at just 19 kg. The equipment includes hatch covers, thigh braces, a hanging seat, deck lining and repair kit, all in one backpack. Optional extras include a steering system, footrests, a thermal PU skirt and sea sock for safety and cleanliness. The Argo is not only fast but also stable and is equally ideal for ambitious beginners and advanced paddlers with big plans. Its robustness and safety have already proven themselves on various expeditions around the globe.

Length: 520 cm/17' | Width: 62 cm/24" | Weight: 19 kg/41 lb | Max. Cap.: 160 kg/352 lb | Material: Skin: PVC/PU mix . Frame: Anodized Aluminum | Colors: Red/Black . Grey/Black | Pack Size: 120 x 45 x 25 cm | Seats: 1

FALTBOOT.DE

NORTIK - NAVIGATOR

The Navigator, an innovative wooden-frame kayak, redefines standards. Weighing just 22 kg, it folds into a backpack, featuring a unique hull design using white ash and birch plywood. This aims at both professionals and beginners, with high stability and flexibility. A bent frame in the bottom provides initial stability, while the round frame rib in the walls ensures final stability. Side air tubes provide additional protection and enable a flexible skin construction. The PVC/PU skin material is UV-resistant and hard-wearing. The clever fitting technology, inspired by bionics and patent-protected solutions such as the board wall hinge, allows a compact pack size. Stainless steel fittings without snap fasteners ensure simple assembly and robustness. On the water, the Navigator demonstrates impressive stability and safety despite its narrower width compared to conventional folding boats. It is fully equipped with keel strips, cover hatches, thigh supports and a backpack.

Length: 505 cm/16'5" | Width: 58 cm/23" | Weight: 22 kg/48.5 lb | Max. Cap.: 150 kg/330 lb | Material: Skin: PVC/PU mix . Frame: Wood | Colors: Red/Black | Pack Size: 115 x 40 x 20 cm | Seats: 1

TRITON ADVANCED - LADOGA 1 ADVANCED

The Ladoga 1 Advanced, multiple winner in the benchmark tests of several leading magazines, impresses with its outstanding rigidity and sea kayak characteristics. With a length of 490 cm, it is a stable all-rounder, perfect for the river, lake and coast. The removable deck makes loading easier, while a watertight hatch in the bow optimizes luggage management. The design with five ribs, full-length keel and side air tubes ensures stability and directional stability. The Ladoga 1 Advanced offers sufficient luggage space for longer trips and can be stowed compactly in a rucksack. The complete set (incl. rucksack, steering system and repair kit) is available at an unbeatable price-performance ratio. Optional sails and other accessories are available.

Length: 490 cm/16'0" | Width: 65 cm/25" | Weight: 17.5 kg/38.5 lb | Max. Cap.: 150 kg/330 lb | Material: Skin: PVC/PU mix . Frame: Anodized Aluminum | Colors: Red/Black | Pack Size: 120 x 48 x 20 cm | Seats: 1

PAKBOATS - QUEST 150

Pakboats has achieved impressive success with the Quest 150: a rigid construction with a fast set-up, good handling characteristics and a weight of only 14.1 kg! The extremely light and robust PU skin material and the gold anodized aluminium frame, which has been reduced to a minimum, contribute to this. The included PU-coated canopy allows the use of a skirt, but can also be paddled open. With its sporty shape, the Quest 150 is designed for touring paddling, but also includes the recreational aspect of the Puffins and impresses with its compact pack size, quick assembly and lightweight. The ideal boat for ambitious paddlers, always ready for spontaneous adventures. And all in a sports bag format!!

Length: 455 cm/15'0" | Width: 61 cm/24" | Weight: 14.1 kg/31 lb | Max. Cap.: 130 kg/286 lb | Material: Skin: PU . Frame: Anodized Aluminum | Colors: Yellow/Black . Blue/Black | Pack Size: 75 x 40 x 30 cm | Seats: 1

PAKBOATS - PUFFIN SACO

With a length of 3.85 m, the Puffin Saco weighs just 9.2 kg! On the water, the Puffin Saco is fast and agile, making it perfect for recreational use. The boats in the Puffin series from Pakboats are characterized by their sleek shape and sporty performance. They are similar in design to the high-quality Quest 150 with increased rigidity and improved handling characteristics. The gold-anodized, corrosion-resistant aluminium rods have been tried and tested for years. The underwater hull is made of black PU (polyurethane) and is not only robust but also extremely lightweight. The floor is additionally reinforced and has a keel strip. The comfortable seat construction can be installed in next to no time, and the entire boat assembly is quick and easy. The optional, self-supporting deck is available in blue or yellow and can be fitted with a spray skirt. And all this in a sports bag format!

Length: 385 cm/12'6" | Width: 69 cm/24" | Weight: 9.2 kg/20.2 lb | Max. Cap.: 130 kg/286 lb | Material: Skin: PU . Frame: Anodized Aluminum | Colors: Yellow/Black . Blue/Black | Pack Size: 75 x 40 x 30 cm | Seats: 1

FOLDABLE 2 & 3

BOATS DESIGNED TO PACK DOWN FOR EASY TRANSPORT AND STORAGE.

TRITON ADVANCED - LADOGA 2 ADVANCED

The Ladoga 2 Advanced, test winner in the two-person folding boat benchmark, is probably the fastest of its kind. With outstanding performance thanks to its low weight and a sharp bow for fast acceleration, it impresses even on open waters. The robust PVC-PU skin is protected by keel strips, and the removable deck makes loading and unloading easier. With side air hoses, it achieves high speeds, especially on longer trips. The complete equipment includes D-rings, deck lining, repair kit, loading hatch, steering system and rucksack. A solo kit is available as an option. The construction features six ribs. A double keel and shaping air hoses guarantees high stability and loading capacity. The Ladoga 2 Advanced is prepared for sails with outrigger system and offers the "ready for Nordik kayak sail"-multifunctional mount.

Length: 600 cm/19'6" | Width: 75 cm/28" | Weight: 28 kg/62 lb | Max. Cap.: 260 kg/573 lb | Material: Skin: PVC/PU mix . Frame: Anodized Aluminum | Colors: Red/Black | Pack Size: 120 x 48 x 25 cm | Seats: 2

TRITON ADVANCED - VUOKSA 2 ADVANCED

The Triton Vuoksa 2 Advanced is the ideal touring kayak with an impressive price-performance ratio, high rigidity and plenty of space. With anodized aluminium frame and durable PVC/PU skin, it is ideal for river and touring trips. The UV-stable skin remains flexible even in cold conditions and is more abrasion-resistant and easier to repair than pure PVC. It offers high directional stability and is unsinkable. With a load capacity of 250 kg, it is perfect for longer trips for two or alone. The possibility of solo paddling and the optional solo deck makes it particularly versatile. The integrated steering system, two-person deck and extensive equipment are included. The Vuoksa 2 Advanced is easy to stow and transport, and a sail option is available.

Length: 482 cm/15'8" | Width: 85 cm/31" | Weight: 24 kg/53 lb | Max. Cap.: 250 kg/551 lb | Material: Skin: PVC/PU mix . Frame: Anodized Aluminum | Colors: Red/Black . Blue/Black | Pack Size: 120 x 48 x 30 cm | Seats: 2

NORTIK - ARGO 2

The Argo, named after the fast ship of the Argonauts from Greek mythology, served as the inspiration for the Argo 2. This unique closed two-person kayak, which weighs just 28 kg and fits in a rucksack, offers absolute impermeability for intensive coastal and inland water tours. The optional sea sock protects against dirt and prevents the boat from filling up in the event of capsizing. With the optional waterproof thermal PU skirt and steering system, the Argo 2 becomes an expedition boat for open waters. With a length of 610 cm and a width of 69 cm, the Argo 2 focuses on stable directional stability. The robust PVC/PU skin and lightweight aluminium frame make it ideal for expeditions. The standard equipment includes a rucksack, deck cord, lifeline, hatches at the bow and stern, installed keel strips and thigh braces.

Length: 610 cm/20' | Width: 69 cm/24" | Weight: 28 kg/62 lb | Max. Cap.: 240 kg/530 lb | Material: Skin: PVC/PU mix . Frame: Anodized Aluminum | Colors: Red/Black . Grey/Black | Pack Size: 120 x 50 x 30 cm | Seats: 2

FOLDABLE CANOES

BOATS DESIGNED TO PACK DOWN FOR EASY TRANSPORT AND STORAGE.

PAKBOATS - PAKCANOE 150

With a length of 4.55 meters, a width of 89 cm and a side wall height of 34 cm, the PakCanoe 150 offers enough space for multi-day fishing adventures or trips with camping equipment. It can also easily cope with whitewater up to Class III. The boat can be used flexibly, from waves to calm waters, and can be maneuvered comfortably depending on the trim. An optional conversion kit is also available, consisting of five cross ribs to customize the shape of the boat. This allows the canoe to be converted into two different shapes: flat and wide for more stability or narrower and deeper for (solo) tours in wilder waters.

Length: 455 cm/15'0" | Width: 89 cm/33" | Weight: 22 kg/48.5 lb | Max. Cap.: 295 kg/650 lb | Material: Skin: PVC . Frame: Anodized Aluminum | Colors: Red . Green | Pack Size: 90 x 43 x 33 cm | Seats: 2

FALTBOOT.DE

PAKBOATS - PAKCANOE 160

The PakCanoe 160, with a length of 4.9 m, is the ideal all-rounder: It offers enough space for two people and sufficient load capacity for extended expeditions or relaxed day trips on a lake. Thanks to the simple loading, the trim of the 160 can be adjusted easily, enabling effortless maneuverability both in waves and in calm water. Thanks to its high tipping stability, the boat is also ideal for family trips with two adults and a child on calm water or whitewater up to Class III. The complete set includes a carrying bag, 2 bench seats, 2 installed stainless steel rings (bow and stern), 5 pre-installed keel strips, reinforced gunwales, an integrated (removable) floor mat, 1 air pump, 2 end caps and a repair kit.

Length: 490 cm/16'0" | Width: 94 cm/37" | Weight: 24 kg/53 lb | Max. Cap.: 345 kg/760 lb | Material: Skin: PVC . Frame: Anodized Aluminum | Colors: Red . Green | Pack Size: 90 x 43 x 33 cm | Seats: 2

FALTBOOT.DE

PAKBOATS - PAKCANOE 165

With a length of 505 cm, and a width of 89 cm, the PakCanoe 165 offers enough space for day trips with the family up to extended expeditions. It is a slimmer alternative to the shorter PakCanoe 160 or the longer 170. It can also easily navigate white water up to level III. With the optionally available conversion kit, the canoe can be converted into two different shapes: flat and wide for more stability or narrower and deeper for (solo) tours in wilder waters. The complete kit includes a packing bag, 2 bench seats, 2 installed stainless steel rings (bow and stern), 5 pre-installed keel strips, reinforced gunwale channels, an integrated (removable) floor mat, 1 air pump, 2 end caps and a repair kit.

Length: 505 cm/16'5" | Width: 89 cm/33" | Weight: 24.5 kg/54 lb | Max. Cap.: 375 kg/826 lb | Material: Skin: PVC . Frame: Anodized Aluminum | Colors: Red . Green | Pack Size: 90 x 43 x 33 cm | Seats: 2

FALTBOOT.DE

PAKBOATS - PAKCANOE 170

The PakCanoe 170 is the largest canoe from Pakboats. With a length of 5.20 m and a load capacity of up to 415 kg, it is the working horse among the folding canoes and is ideal for use on long and demanding expeditions (not only in the Canadian Arctic). Thanks to its high tipping stability and the option of installing up to 4 bench seats, the PakCanoe 170 is also very popular with families. The complete kit includes a packing bag, 2 bench seats, 2 installed stainless steel rings (bow and stern), 5 pre-installed keel strips, reinforced gunwale channels, an integrated (removable) floor mat, 1 air pump, 2 end caps and a repair kit.

Length: 520 cm/17'0" | Width: 96 cm/37" | Weight: 25.5 kg/56 lb | Max. Cap.: 415 kg/914 lb | Material: Skin: PVC . Frame: Anodized Aluminum | Colors: Red . Green | Pack Size: 90 x 43 x 33 cm | Seats: 2

FALTBOOT.DE

NAUTIRAID - UMIK 475

The Umiak 475 received the "Canoe of the Year Award" in 2019 at the Paddle Expo Show. Its size (15'7") is ideal for paddling solo (the seat can be positioned in the middle of the craft) or with a crewmate or a family on board, on rivers and lakes. Its dynamics are equal to rigid canoes on the water thanks to its very rigid aluminium 7070 frame. Stable yet easy to maneuver, its stabilizers give extra buoyancy and elegant lines. The new sand color makes a very beautiful boat on the water. Assembly time: 20 min.

Length: 475 cm/15'7" | Width: 90 cm/35.4" | Weight: 23 kg/50.7 lb | Max. Cap.: 320 kg/705 lb | Material: PVC skin . Aluminium frame | Colors: Sand . Blue . Khaki . Red . White | Sizes: 390 . 475 . 520

MODULAR KAYAKS

KAYAKS DESIGNED WITH INTERLOCKING PARTS FOR EASE OF STORAGE AND TRANSPORT.

STELLAR - ST19 MOD TANDEM

This lightweight tandem kayak is easily divisible into 4 pieces. It can be used as a tandem or solo.

Length Tandem: 580 cm/19'0" | Width: 65 cm/25.5" | Weight: 27 kg/59.5 lb | Max. Cap.: 255 kg/562 lb | Length Solo: 436 cm/14'3" | Width: 65 cm/25.5" | Weight: 18.5 kg/40.8 lb | Max. Cap.: 155 kg/341 lb | Material: Fiberglass . Carbon-Kevlar | Colors: Individual

LITEVENTURE.DE

STELLAR - S14 G2 MOD

The S14 G2 Mod is lightweight and divisible. This concept immediately inspires because it does not compromise between performance on the water and compactness during transport and storage.

Length: 436 cm/14'3" | Width: 62 cm/24.4" | Weight: 18.5 kg/40.8 lb | Max. Cap.: 155 kg/341 lb | Material: Fiberglass . Carbon-Kevlar | Colors: Individual

LITEVENTURE.DE

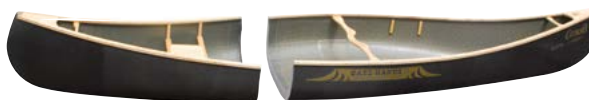

GATZ - CANOKI-TAKE OFF

The Canoki shows that a short canoe can be streets ahead of others in all material versions. In carbon with a wooden edge, it becomes a flyweight and is just as effortlessly easy to move on land as it is in the water. In the split take-off version, it is even easier to handle for storage, transportation and long-distance travel. Split into 250/150 cm or 260/140 cm, for example. Also ideal for motorhomes and yachts!

Length: 400 cm/13'2" | Width: 93 cm/36" | Weight: from 20.5 kg/45 lb | Max. Cap.: 320 kg/705 lb | Material: various composite layups

GATZ.COM

ORIGAMI KAYAKS

FOLDING BOAT THAT CAN BE FOLDED IN ORIGAMI STYLE FROM A SINGLE SOLID BOARD

NORTIK - FOLD 4.2

The Nortik Fold is a revolutionary folding boat that can be folded in origami style from a single solid board. With a length of 420 cm, it offers high mobility and rapid use. Thanks to the innovative "nortilen" material mix, it is robust, UV-resistant, low-temperature stable and particularly tough. Compared to conventional twin-wall materials, nortilen prevents irreversible misfolding and dirt formation. The material is fully recyclable and environmentally friendly. With installed footrests, an inflatable seat and a standard deck lining, the Nortik Fold offers all the comfort of a sporty kayak. The supplied carry bag with stowable rucksack straps makes it easy to transport. The boat is ready for use in just a few minutes and combines innovation in design and sporty performance with durability and therefore environmental sustainability.

Length: 420 cm/13'7" | Width: 64 cm/24" | Weight: 16.5 kg/36 lb | Max. Cap.: 130 kg/286 lb | Material: Nortilen | Colors: White | Pack Size: 92 x 74 x 30 cm | Seats: 1

FALTBOOT.DE

TERRAVENT - K1

A kayak that measures 9'8 and folds into a small box. This origami kayak weighs 20 pounds, which is half as much as a regular kayak. It can fit anywhere and is small enough to store in the trunk of your car (or two!). In comparison to inflatable kayaks, it tracks and maneuvers significantly better. With the K1 kayak, you can hike anywhere or even take it on a plane.

Length: 295 cm/9'6" | Width: 79 cm/30" | Weight: 9 kg/19.8 lb | Max. Cap.: 125 kg/275 lb | Material: Polypropylene | Color: White

ALOUETTEOUTDOOR.COM

TERRAVENT - K2

A 12'3 kayak that folds down to the size of a large suitcase at 26 pounds, it's much lighter than a rotomolded kayak. It's compact enough to store almost anywhere. You can bring it on a plane or hike into the wilderness.

Length: 390 cm/12'10" | Width: 65 cm/25.6" | Weight: 10.5 kg/23 lb | Max. Cap.: 150 kg/330 lb | Material: Polypropylene | Color: White

Despite its economical price, it boasts a reliable pedal drive system, offering hands-free maneuvering for anglers seeking affordability without compromising functionality. This kayak's compact design enhances its versatility, making it equally suitable for leisurely paddling excursions. While it may not have all the bells and whistles of pricier models, the Flash PD doesn't skimp on essential features, providing ample storage and stability for a satisfying fishing experience. Whether casting a line or simply enjoying a day on the water, this kayak proves that affordable doesn't mean sacrificing quality. With its pedal drive system, the Flash PD stands out as an accessible option for both fishing enthusiasts on a budget and those looking for an affordable entry into the world of recreational kayaking.

TAHE - KAYAK FISHING

The Java Fishing gives you above all an outstanding compromise between glide and stability. At more than four meters long, you can take on more ambitious excursions. Its large rear storage area and integral roller system are great advantages for angling outings. Better still: comprehensive fittings and accessories give you lots of options for personalising its set-up, for angling or other trips.

Length: 396 cm/13'5" | Width: 71 cm/28" | Max. Cap.: 150 kg/330 lb

TAHESPORT.COM

K1 COMPOSITE

MADE FROM A COMBINATION OF CARBON, KEVLAR AND FIBERGLASS, THEY ARE LIGHTER THAN THEIR PLASTIC COUNTERPARTS BUT LESS DURABLE IN THE EVENT OF IMPACT.

P&H SEA KAYAKS - VOLAN

The Ultimate Lightweight. Highly Versatile Day/Weekend Sea Kayak - now even lighter in Ultralight! The Volan is built specifically for those who want to make the most of day and weekend trips; tracking straight when flat but swinging round effortlessly when on edge or carving into a turn, the Volan has comfortable performance for both the journey and any play spots you find on the way. The short, 16'0" length provides ample hull speed for most adventures and helps keep weight to an absolute minimum for nimble performance and easy handling.

Length: 489 cm/16'0" | Width: 58 cm/22.8" | Weight: 16 kg/34 lb | Max. Cap.: 120 kg/264 lb
| Material: Ultralight Kevlar/Carbon Infusion | Colors: Custom | Sizes: 158 . 160

PHSEAKAYAKS.COM

P&H SEA KAYAKS - ARIES

A now-iconic, ocean-play sea kayak design, truly built for purpose. A planing hull is highly maneuverable, reassuringly stable, and ideal for use in the surf, where the high-volume bow with pronounced rocker in combination with a set-back cockpit position prevents the Aries from purling and allows you to ride the wave all the way into shore.

Length: 485 cm/15'9" | Width: 58 cm/22.4" | Weight: 22 kg/48.5 lb | Max. Cap.: 125 kg/275 lb
| Material: Lightweight Kevlar/Carbon Infusion | Colors: Custom | Sizes: 150 . 155

PHSEAKAYAKS.COM

P&H SEA KAYAKS - COMPOSITE VIRGO

P&H's best-selling sea kayak is now available in composite! The Composite Virgo takes P&H's best-seller of the last 2 years running and makes it even better; more responsive on the water, more efficient, and weighing as little as 16kg, meaning it's an easy choice for anyone who wants to upgrade from a plastic Virgo, or jump straight into composite in a design they can be sure of.

Length: 449cm/14'7" | Width: 58 cm/22.8" | Weight: 24 kg/54 lb | Max. Cap.: 110 kg/242 lb
| Material: Classic Diolen | Colors: Signal Red . Anchusa Blue . Canary Yellow | Sizes: One Size

PHSEAKAYAKS.COM

P&H SEA KAYAKS - CETUS

Perhaps the best-selling composite sea kayak ever made. The ultimate expedition platform, the Cetus features a shallow "V" hull and large, rounded chines smoothly transitioning into a slender bow and stern, allowing it to track well and cover distance comfortably, but also swing around nimbly on edge, all whilst being remarkably stable no matter what the ocean throws at you.

Length: 541 cm/17'7" | Width: 54.5 cm/21.5" | Weight: 25 kg/55 lb | Max. Cap.: 115 kg/253 lb
| Material: Expedition Kevlar/Carbon Infusion | Colors: Custom | Sizes: LV . MV . HV

PHSEAKAYAKS.COM

SKIM - BEAUFORT XL

LITEVENTURE.DE

LETTMANN - AKAROA

The Akaroa is the perfect travel boat for those who don't want to drive by the stopwatch. The excellent directional stability, paired with the safe, yet agile hull ensures that you are always relaxed on the road and still have reserves if the elements do surprise you. None of our sea kayaks are so neutral in wind and waves and remain so unimpressed when there is a strong breeze from aft or port. The slightly wider, flatter and more angular bottom is also really fun in surfing. The raised stem also allows the Akaroa to run dry even in long surf waves - a real pleasure!

Length: 525 cm/17'3" | Width: 57-58 cm/22.4-22.8" | Weight: 21-26 kg/46.3-57.3 lb | Max. Cap.: 50-100 kg/110-243 lb | Material: Composite DCS, LCS, VCS | Colors: Full RAL Color Scheme | Sizes: 65 . 80 . 95

LETTMANN.DE

LETTMANN - SKAGERRAK

If you want to be on the safe side, are looking for a particularly large cockpit or need a lot of room for thighs and big feet, please take a seat in the Skagerrak! The Skagerrak also offers plenty of storage space for expeditions and long journeys away from civilization. The good-natured, yet fast hull conveys a lot of security and control without looking like a cargo ship. Despite its large volume, the Skagerrak is a sporty sea kayak - just for larger paddlers.

Length: 555 cm/18'3" | Width: 58-58.5 cm/22.8-23" | Weight: 23-28 kg/50.7-61.7 lb | Max. Cap.: 70-130 kg/154-287 lb | Material: Composite DCS, LCS, VCS | Colors: Full RAL Color Scheme | Sizes: 90 . 110

LETTMANN.DE

LETTMANN - ADRIA

Small but great. With its five meters in length, the compact Adria comes across as a shy symbiosis of sea and touring kayaks at first glance. But the excellent directional stability, the safe hull and the raised stem show you, even in heavy seas, in wind and waves, that she is a sly old dog - and you can always have everything under control with her. The Adria leads you light-footedly to your personal comfort zone and gives you security even when you have crossed it.

Length: 500 cm/16'5" | Width: 58 cm/22.4-22.8" | Weight: 20-25 kg/44.1-55.1 lb | Max. Cap.: 140 kg/992 lb | Material: Composite DCS, LCS, VCS | Colors: Full RAL Color Scheme | Sizes: 65 . 80

LETTMANN.DE

LETTMANN - BISKAYA 55/65

The Biskaya has been the athlete among our sea kayaks since 2011. The particularly fast and slim kayak is maneuverable and particularly agile, especially when you make use of the edge - which was child's play then as now thanks to the slim, strongly rounded U-frame. The new Biskaya, which is now available in four instead of three sizes, comes across as a sporty all-rounder more than ever, because the second generation's directional stability has been slightly optimized, which pays off on long tours and journeys, but not at the expense of the agility works. In addition, the sterns have been slightly raised, which has a positive effect when surfing and breaking true waves.

Length: 533 cm/17'6" | Width: 51.5-52 cm/20.3-20.5 lb | Weight: 19-24 kg/41.9-52.9 lb | Max. Cap.: 40-80 kg/88-176 lb | Material: Composite DCS, LCS, VCS | Colors: Full RAL Color Scheme | Sizes: 55 . 65

LETTMANN.DE

ZEGUL - ARROW PLAY MV 3D C-CORE

The Arrow Play MV 3D C-core is a performance sea kayak, it's lightweight and elegant, developed especially for playing and surfing in the sea. The hull has significant rocker and volume in the bow to avoid diving when riding down the wave. The mid-section has a slightly rounded profile, making it very smooth from edge to edge. This combined with the hard chines make the Play a joy to paddle, whether you enjoy the rough stuff or just want a sea kayak that responds instantly to your moves. Carbon hull with special metal wire fabric makes it lightweight and adds extra toughness and stiffness.

Length: 517 cm/17'0" | Width: 54 cm/21.3" | Weight: 20 kg/44 lb | Max. Cap.: 150 kg/330 lb
| Material: 3 D C-core (Fiberglass, Carbon) | Colors: White . Gray . Carbon

ZEGULKAYAKS.COM

NORSE KAYAKS - BYLGJA

This is a hardchine kayak with a firm skeg. The Bylgja is extremely good at tracking in all conditions and turns on a dime. Like all our sea kayaks, the Bylgja's hull is reinforced with aramid throughout the keel. In addition to this, the chines are also reinforced to take a beating. This kayak has three bulkheads and two-day hatches for storage room.

Length: 520 cm/17'0" | Width: 55 cm/21.6" | Weight: 24 kg/53 lb | Max. Cap.: 140 kg/309 lb
| Material: Fiberglass . Carbon | Colors: Red White . Black White

NORSEKAYAKS.COM

NORSE KAYAKS - FREYJA

The Freyja is designed with the smaller paddler in mind, with its 550 cm length and 55 cm width. It has a v-shaped hull which contributes to the Freyja's fast speed and great tracking. The accessible day hatch behind the cockpit gives access to one of three bulkheads. All hatches are watertight and easy to open in all conditions. The comfortable seat with an adjustable backrest makes staying out on the waters for hours a real pleasure.

Length: 550 cm/18'0" | Width: 55 cm/21.6" | Weight: 24 kg/53 lb | Max. Cap.: 95 kg/109 lb
| Material: Fiberglass . Carbon | Colors: Red White . Black White

NORSEKAYAKS.COM

MELKER OF SWEDEN - RÖDLÖGA

Agile, playful, and as fast as a rocket! The adjustable skeg allows for true tracking in even the most challenging waters. The paddler also has the option to drop in the (optional) rudder for swirling currents and long crossings. Features enough storage capacity for an extended weekend, with a cockpit that offers exceptional comfort for full days on the water. Melker's plant-based construction aims to revolutionize the industry and help protect the waters and environment we all love.

Length: LV 480 cm/15'7" . HV 505 cm/16'5" | Width: LV 52 cm/20.5" . HV 54 cm/21.3"
| Weight: LV 19.5 kg/43 lb . HV 21.5 kg/47 lb | Material: Proprietary plant-based construction . Flax fibers . Solid cork core | Colors: Turquoise . White | Sizes: LV . HV

MELKEROFSWEDEN.SE

MELKER OF SWEDEN - VÄRMDÖ

With Melker Värmdö, we introduce our next-generation lightweight, high-performance, and plant-based construction in a really comfy and playful light touring & recreational kayak. Värmdö is targeted for savvy performance paddlers and the more recreational 'la dolce vita paddlers' who want to feel like rockstars on the water (still being able to easily toss it up on the roof rack post-paddling). Sleek, forgiving, and stable for new paddlers to learn, with performance characteristics, predictability, and endless playtime for surf, roll, carve, and rock gardening. The adjustable and rope-operated skeg (optional rudder) allows for true tracking in even the most challenging waters.

Length: LV 411 cm/13'5" . HV 442 cm/14'5" | Width: LV 59.5 cm/23.4" . HV 62 cm/24.4"
| Weight: LV 16.5 kg/36 lb / HV 18 kg/39 lb | Material: Proprietary plant-based construction . Flax fibers . Solid cork core | Colors: Turquoise . White | Sizes: LV . HV

RAINBOW KAYAKS - LASER 5.15

Ideal for kayaking excursions on the sea and lake. The stability and speed, combined with the widest range of accessories, make it ideal for camping and boat trips lasting several days. It comes standard with front and rear elastic nets, three watertight compartments, padded adjustable anatomical seat, padded backband, pedal footrest, padded adjustable knee braces, and perimetral deckline.

Length: 515 cm/16'11" | Width: 59 cm/23" | Weight: 24 kg/53 lb | Max. Cap.: 90 kg/198 lb | Material: PE

RAINBOWKAYAKS.COM

ARCTIC WATERSPORT - PROTON

Equipped with good paddling properties, is well suited for river and lake trips, as well as coastal sea due to its dimensions. The kayak is stable and easy-to-maneuver. It is well suited for paddlers who are in the beginning stages of their paddling career. The XL-size cockpit makes getting in and out of the kayak effortless. Good storage spaces enable overnight trips and longer weekend trips. The kayak is suitable for M-XXL size paddlers.

Length: 462 cm/15'2" | Width: 59 cm/23.2" | Weight: 24 kg/53 lb | Material: Single layer polyethylene

ARCTICWATERSPORT.FI

RAINBOW KAYAKS - OASIS 4.30

The Oasis is a very stable and fast sea kayak, easy to use, and very reliable for sea and lake excursions—even multi-day trips. It comes standard with an elastic net, two large watertight compartments, a padded adjustable back band, a padded adjustable ergonomic seat, and pedal footrest.

Length: 430 cm/14'1" | Width: 64 cm/26" | Weight: 20 kg/44 lb | Max. Cap.: 95 kg/209 lb | Material: Polyethylene

RAINBOWKAYAKS.COM

SEAFLO - RIPPLE 11.5

Low on the water, the stable and agile Ripple 11.5 feels like a smaller sea kayak. Thanks to its progressive chine and a generous yet sleek outline. The integrated keel makes its hull stiff and the skeg lets you focus on your destination, while the front deck rigging and rear watertight compartment take care of your belongings.

Length: 350 cm/11'5" | Width: 63 cm/24.8" | Weight: 18.4 kg/40.57 lb | Max Capacity: 135 kg/298 lb | Material: Blow Molding HDPE

SEAFLOOUTDOOR.COM

ECO KAYAK - ADVENTURE

The Eco Kayak Adventure is one of the most popular 450 cm long, 55 cm wide sit-in touring kayaks from the manufacturer's product range. Where in addition to achieving the best cruise speed great emphasis was placed on the maximum comfort of the kayaker, with the ergonomically designed, fabric-covered sponge seat and height-adjustable fabric-covered waist support. The behavior of the boat is determined by the design of the bottom. The wedge or V-shaped front and back of the Eco Kayak Adventure provide high traveling speed and good directional control, while the flat middle part with two longitudinal ribs provides stability and rigidity to the hull.

Length: 450 cm/14'9" | Width: 55 cm/21.7" | Weight: 26 kg/57.2 lb | Max. Cap.: 120 kg/264.5 lb | Material: HDPE | Colors: Orange . Green . Blue

P&H SEA KAYAKS - DELPHIN II 155

In both appearance and performance, the P&H Delphin is entirely unique. Over 45 years of Pyranha whitewater kayak innovation, infused with P&H's design heritage that dates back to 1968 has produced a sea kayak that river paddlers looking to expand their horizons will feel instantly at home in. The 155 size has been updated to a MKII version, taking advantage of the extra deck space to add a much-requested Day Hatch, as well as tweaking the ergonomics, styling, and features of the rest of the deck.

Length: 475 cm/15'5" | Width: 57 cm/22.4" | Weight: 25.5 kg/55 lb | Max. Cap.: 125 kg/275 lb | Material: CoreLite X (Foam Core HDPE) | Colors: Lizard Green . Fuego Orange . Tahoe Blue | Sizes: 155

PHSEAKAYAKS.COM

P&H SEA KAYAKS - SCORPIO II

No other polyethylene sea kayak on the market is as fully featured and expedition-ready as this. The Scorpio shares the same progressive hull profile as the Cetus, transitioning seamlessly from a slender bow to a highly stable, slight 'V' body with rounded chines, giving a smooth ride and effortless control in all conditions, particularly when coupled with the option of the revolutionary P&H Skudder system.

Length: 525 cm/17'2" | Width: 58 cm/22.8" | Weight: 29 kg/64 lb | Max. Cap.: 125 kg/275 lb | Material: CoreLite X (Foam Core HDPE) | Colors: Lizard Green . Fuego Orange . Tahoe Blue | Sizes: LV . MV . HV

PHSEAKAYAKS.COM

P&H SEA KAYAKS - VIRGO CLX [HV]

A polyethylene sea kayak that takes day and weekend trips seriously. The Virgo is a compact but uncompromising sea kayak for weekend warriors, at a length that provides ample hull speed for short to medium journeys whilst keeping the boat weight to a minimum, making it easier to handle all the way from lifting it off the car, through a trip full of unique experiences, to lifting it back onto the car at the end of a great adventure. Thanks to extra space on the deck, the HV version also comes with a Day Hatch just behind the paddler, for easy on-the-water access to more of your gear.

Length: 457 cm/15'0" | Width: 62 cm/24.4" | Weight: 28 kg/63 lb | Max. Cap.: 130 kg/286 lb | Material: CoreLite X (Foam Core HDPE) | Colors: Lizard Green . Fuego Orange . Tahoe Blue | Sizes: HV

The Nelo 400 is the perfect choice for any person who is looking for an extra-stable and versatile kayak. Its extravagant design is specially developed to be a boat for all skill levels. With a stability level of 10/10, the Nelo 400 makes paddling easy for everyone, even those who never paddle before. As usual, Nelo wants the best performance possible even in an entry-level boat, which makes the Nelo 400 probably the fastest boat in its range. An eco-friendly boat! To produce this boat we used 8.5 kg (50%) of polyethylene, 6.8 kg (40%) of recycled material and 1.7 kg (10%) of material reused internally as defective boats, surplus material, etc.

Length: 380 cm/12'6" | Width: 70 cm/27.6" | Weight: 17 kg/37.5 lb | Max. Cap.: 100 kg/220.5 lb | Material: PE (8.5 kg (50%) of polyethylene, 6.8 kg (40%) of recycled material and 1.7 kg (10%) of material reused internally as defective boats) | Colors: Colors produced will never be equal.

SHOP.VAJDAGROUP.COM

KAPE - MISTRAL 550

Designed for intermediate to advanced fast touring paddlers seeking both speed and control in a high-performance sea kayak. The Mistral 550 is especially dedicated to stronger, somewhat heavier paddlers looking for high cruising speed, but also needs an impressive carrying capacity. The sleek hull design makes full use of the boat's overall length, resulting in a long and efficient waterline making the boat very fast and less exposed to pitching at the same time. The boat is often used in rivers, so the rudder is fitted as standard to achieve more control. Using the adjustable skeg instead makes the kayak easily be trimmed in the sea or bigger lakes for neutral cross-wind performance.

Length: 550 cm/18' | Width: 53 cm/20.87" | Weight: 21 kg/46.3 lb | Max. Cap.: 175 kg/386 lb | Material: Composite (GRP or CSR) | Colors: Custom RAL colors | Sizes: one size

KAPE-KAYAK.COM

ZEGUL - SEAROCET CARBON

The Seacroket is the fastest touring kayak in the Zegul range. It has an eye-catching shape and a long waterline. The full carbon lay-up is a perfect choice for fitness paddling, training, and sea marathons. Due to its oval-shaped roomy cockpit, it offers the possibility to paddle in a sportier style, and it suits perfectly for different body types. The shape & hull design of the kayak makes it react fast & turn like a dime. The Seacroket is equipped with a SmartTrack rudder and a retractable skeg.

Length: 550 cm/18' | **Width: 54 cm/21.3"** | **Weight: 20 kg/44 lb** | **Max. Cap.: 140 kg/309 lb** | **Material: Carbon** | **Color: Carbon**

ZEGULKAYAKS.COM

P&H SEA KAYAKS - VALKYRIE

The Valkyrie is a unique experience not to be missed. Designed for speed; whether you use that speed to take on more extensive open water crossings and expeditions, to challenge a circumnavigation record, or just to inject a touch more adrenaline into your day trips, is up to you.

Length: 540 cm/17'7" | **Width: 54 cm/21.2"** | **Weight: 25 kg/55 lb** | **Max. Cap.: 115 kg/253 lb** | **Material: CoreLite X (Foam Core HDPE)** | **Colors: Lizard Green . Fuego Orange . Tahoe Blue** | **Sizes: One Size**

OUTRIGGERS

SHARE THE MAGIC OF THE OCEAN AT HIGH SPEED.

WOO OUTRIGGER - KAWAN

The only Hawaiian canoe designed for initiation and built to withstand intensive use. Kawan is the result of four years of field feedback and improvements that have allowed us to come up with this successful, ultra-versatile and robust model. It can be assembled in three configurations (single, catamaran and trimaran) to meet the needs of a wide public (children, people with apprehensions, people with disabilities). Kawan is playful, stable, easy to assemble and easy to steer. You steer using pedals connected to a rudder. You are therefore autonomous from the first stroke of the paddle.

Length: 510 cm/17.7" | **Width: 45 cm/1'4"** | **Weight: 17 kg/37.4 lb** | **Max. Cap.: 120 kg/265 lb** | **Material: Fiberglass & polyester resin** | **Colors: White & turquoise stickers** | **Sizes: One size**

WOO-OUTRIGGER.COM

WOO OUTRIGGER - SNIPER

SNIPER is our latest model, released last year after a year and a half of research and development. For this model, we wanted to make a complete break with what was available on the market. Sniper is a concentration of innovations: A cockpit completely reworked from scratch to improve the rowing position, designed for long distances. An adjustable foot brace for specific adjustments to the paddler and the weather conditions, a straight bow to make upwind easier and two shapes of float (flat or downwind) for even greater versatility.

Length: 585 cm/19'1" | **Width: 45 cm/17.7"** | **Weight: 11 kg/24.2 lb** | **Max. Cap.: 110 kg/242 lb** | **Material: Carbon fibre & epoxy resin** | **Colors: Colors and customization to order** | **Sizes: One size**

HIGH END

STABLE DESIGN AND HIGH-END CONSTRUCTION MAKE THESE CANOES PERFECT FOR TOURING ON LAKES AND EASY RIVERS.

GATZ - CAYUGA

Whether traveling alone or as a couple with plenty of luggage, the CAYUGA is a beautiful canoe with a safe water position, balanced handling, elegant lines and a captivating look.

Length: 460 cm/15'0" | Width: 88 cm/34.6" | Weight: from 20.5 kg/45 lb | Max. Cap.: 380 kg/837 lb | Material: various composite layups

[GATZ.COM](https://www.gatz.com)

GATZ - MOHAWK 470

A canoe with a hull shape close to the ultimate all-rounder. The Mohawk is one of our bestsellers. It is an outstanding choice for a family seeking a canoe with stability, speed and maneuverability and with the capacity for carrying both children and equipment. The same hull with wood gunnel is available as Athabasca 470.

Length: 470 cm/15'4" | Width: 90 cm/35.4" | Weight: from 21 kg/46 lb | Max Cap: 395 kg/870 lb

[GATZ.COM](https://www.gatz.com)

GATZ - CANADIAN 475

A Canoe for two adults with a child and gear. The Canadian 475 speeds up very fast and then runs easily light and is well maneuverable. With a V-shaped hull, the Canadian 475 is ideally suited for deeper waters and rivers however this canoe can as well be paddled on small rivers.

Length: 475 cm/15'5" | Width: 90 cm/35.4" | Weight: from 20.5kg/45 lb | Max Cap: 390 kg/860 lb

[GATZ.COM](https://www.gatz.com)

GATZ - CHEROKEE 527PE

One of the largest polyethylene canoes in the world. This canoe is designed to meet the requirements of long trips and to provide enough carrying capacity to seat four adults. The shallow V-hull, in combination with our extremely stiff 3-layer polyethylene, provides an exceptional stiffness-to-weight ratio for this large canoe. The Cherokee 527PE adds to our range of composite Cherokees and is more suitable for use in arduous conditions or where daily hard wear may be expected. It is the ideal craft for rental operations, schools and groups.

Length: 527 cm/17'2" | Width: 95 cm/37.4" | Weight: 44 kg/97 lb | Max Cap: 490 kg/1080 lb

[GATZ.COM](https://www.gatz.com)

GATZ - YOHO 2 WOOD GUNNEL

One of the GATZ classics. An easy-going all-round performer with great aesthetic beauty. A favorite with beginners and experts alike. Its good all-around performance makes the Yoho 2 an easy-to-paddle double canoe but it is also a very popular solo canoe, thus highlighting its versatility. When paddled singly, a special spray cover with a larger hole at the front may be fitted. This version features a beautiful wooden gunnel and has many seat options. The full composite version is also available.

Length: 455 cm/14'11" | Width: 80 cm/31.5" | Weight: 19 kg/41.88 lb | Max.Cap.: 320 kg/705 lb

[GATZ.COM](https://www.gatz.com)

GATZ - ONTARIO

A team canoe with 7 seats for up to 10 adults for safe and fast paddling. Despite its size, it is very easy to handle. It just needs one good paddler in the stern. The Ontario is one of the bestselling team canoes in the world. Its usage is in clubs, schools, and youth groups. There is sufficient space to stow equipment for extended trips with this fascinating canoe.

Length: 700 cm/23'0" | Width: 130 cm/51.2" | Weight: 100 kg/220.5 lb | Max.Cap.: 1100 kg/2425 lb

[GATZ.COM](https://www.gatz.com)

GATZ - YOHO 2

One of our classics. An easy-going all-round performer with great aesthetic beauty. A favorite with beginners and experts alike. Its good all-around performance makes the Yoho 2 an easy-to-paddle double canoe but it is also a very popular solo canoe, thus highlighting its versatility. When paddled singly, a special spray cover with a larger hole at the front may be fitted.

Length: 455 cm/14'9" | Width: 80 cm/31.5" | Weight: from 18.5 kg/41 lb | Max. Cap.: 280 kg/617 lb | Material: various composite layups

GATZ.COM

BEAVER CANOES - LUX

Lightweight 2-person canoe, produced in Latvia, by the Beaver Canoe Factory. The hull utilizes sandwich construction, strengthening the hull and providing long-term resistance at high loads.

GATZ - ATHABASCA 470

The ATHABASCA 470 is based on the well-loved hull of the Mohawk 470. With the standard wooden trim the Athabasca is one of the most beautiful canoes around. It comes with two woven seats and has very balanced characteristics – a very nice canoe! Various seat options are available at your choice.

Length: 470 cm/15'4" | Width: 90 cm/35.4" | Weight: from 20.5 kg/45 lb | Max. Cap.: 360 kg/793 lb | Material: various composite layups

[GATZ.COM](https://www.gatz.com)

GATZ - PROSPECTOR 488

While there are dozens of different Prospector-named models on the market, the Gatz version is very close to the original. The handling characteristics of the Gatz-Prospector are very close to those of our Ohio and Orca all-rounders, which have been tried and tested for decades. A moderate round bilge and pronounced keel jump combined with a very high load capacity, which is exactly what this classic wilderness touring canoe was designed for, make it an excellent all-around touring canoe in all load situations.

Length: 488 cm/16'0" | Width: 89 cm/35" | Weight: from 22.5 kg/49 lb | Max. Cap.: 420 kg/925 lb | Material: various composite layups

[GATZ.COM](https://www.gatz.com)

GATZ - YOHO 1-70

A very maneuverable solo Canadian with lots of space to put your gear. Suitable for both small rivers and big lakes. The YOHO 1 is, due to its maneuverability, very suitable for whitewater canoeing. The hull has a shallow, round shape, on the Yoho 1-80 and bit more rocker. The YOHO 1-70 is a bit less maneuverable than the wider Yoho 1-80 which features a flat bottom, however, it runs a bit quicker and is easier to Eskimo roll the canoe. The Yoho's are ideal for individualists, fast whitewater canoeing, kids and youngsters and have been the first choice in various canoe films.

Length: 470 cm/15'4" | Width: 90 cm/35.4" | Weight: from 20.5 kg/45 lb | Max. Cap.: 360 kg/793 lb | Material: various composite layups

[GATZ.COM](https://www.gatz.com)

GATZ - OJIBWA S

The small, quite agile brother of the long OJIBWA. Great for solo paddling and a handy two-person canoe that is fast and easy to paddle on most waters. The slightly asymmetrical hull shape and light round bottom are further features of this traditional and visually very attractive canoe.

Length: 470 cm/15'4" | Width: 90 cm/35.4" | Weight: from 20.5 kg/45 lb | Max. Cap.: 360 kg/793 lb | Material: various composite layups

[GATZ.COM](https://www.gatz.com)

GATZ - CHEROKEE 550

The extra-long Cherokee follows a remarkable concept. Despite its size, it is easy to handle and is absolutely safe. The Cherokee 550 is an exceptional tripping canoe and will perform best on all rivers and lakes. If you are looking for a canoe, that can handle almost any load, here is what you need.

Length: 550 cm/18' | Width: 95 cm/37.4" | Weight: from 29 kg/63 lb | Max. Cap.: 500 kg/1102 lb | Material: various composite layups

[GATZ.COM](https://www.gatz.com)

GATZ - YAQUI - WOOD GUNNEL

Fast and safe solo canoe, based on the slim hull design of our popular YAQUI, which has been appreciated by solo paddlers for decades. A canoe with which you can easily keep up with double canoes. Due to the larger hatch opening thanks to the wooden rim, the Yaqui wooden rim can also be manufactured with two seats (special design with surcharge) for two light adults (max. 60-75 kg) who have a good sense of balance and appreciate fast straight-ahead travel in a light canoe. The YAQUI Holzrand is ideal for hiking trips on lakes and large bodies of water, as well as tours on small rivers and, ideally with a tarpaulin and additional buoyancy, also on unblocked whitewater.

Length: 455 cm/14'9" | Width: 75 cm/29.5" | Weight: from 16.5 kg/36 lb | Max. Cap.: 300 kg/660 lb | Material: various composite layups

MID RANGE

STABLE DESIGN AND MEDIUM RANGE CONSTRUCTION MAKE THESE CANOES PERFECT FOR TOURING ON LAKES AND EASY RIVERS.

ARCTIC WATERSPORT - PROSPECT 165

A traditional-style canoe without compromise – the Prospector 165 is sized well for two adults with a serious amount of gear, or three adults with a moderate amount of gear. The traditional style Venture Prospector excels on wilderness expeditions and whitewater trips, making it popular with enthusiasts and outdoor centers across the globe. The historic Prospector designs that this model is based upon were true workhorses, and the Venture Prospector shares their ability to maintain supreme edging performance for pleasingly smooth turns on both moving and flat water, even when fully loaded.

Length: 494 cm/16'2" | Width: 90 cm/35.4" | Weight: 37 kg/81.5 lb | Material: Polyethylene sandwich

ARCTICWATERSPORT.FI

VENTURE CANOES - RANGER 149 ADVENTURER

A highly versatile, modern design. A firm favorite with families and hirers alike, the Venture Ranger is stable and supremely hard-wearing. The Ranger 149 is a lovely, versatile boat for an individual to get settled in the sport, do some light touring, or even tackle some cruisy whitewater - it'll even take a light tandem pair for additional fun, and looks classy with the premium fittings that come with Adventurer Spec.

Length: 450 cm/14'9" | Width: 90 cm/35.4" | Weight: 35 kg/77 lb | Max. Cap.: 350 kg/771 lb | Material: CoreLite (Foam Core HDPE) | Colors: Dark Green . Fuego Orange . Olive Green . Tahoe Blue | Sizes: One Size

POLYROTGROUP.COM

VENTURE CANOES - AFON ADVENTURER

A true enthusiast's canoe. Rivers can be tranquil, or they can be wild, and the Venture Afon is a canoe in which you can enjoy either variety as well as everything between, whether paddled solo or tandem. The Afon tracks beautifully when flat, but heel it over onto its high-stability chines and the paddle cutaways will allow you to perfectly place your blade and swing the boat around on the spot; on the way downriver you'll notice the flared, high-volume bow picking up through features and keeping you dry and headed in the right direction.

Length: 454 cm/14'9" | Width: 91 cm/35.8" | Weight: 39 kg/86 lb | Max. Cap.: 350 kg/771 lb | Material: CoreLite (Foam Core HDPE) | Colors: Dark Green . Fuego Orange . Olive Green . Tahoe Blue | Sizes: One Size

VENTURECANOES.COM

CLEARWATER DESIGN - KAWARTHA

The KAWARTHA is an excellent family canoe with a versatile design that is at home on lakes and rivers. This model has a slightly rounded bottom and no keel. The entry and exit lines are blunt and ride up well on waves.

Length: 493 cm/16'2" | Width: 89 cm/35" | Weight: 34 kg/75 lb | Material: Multi-layer Linear Polyethylene | Colors: Red . Green

CLEARWATERDESIGNBOATS.COM

ROTOATTIVO - CANADIER 5

A classic open canoe made from non-classic 3-layered recycled Polyethylene. We at ROTO have developed a special recycled material we call PeCycled. PeCycled has the same properties as virgin material, but it has an advantage over the original material – by using PeCycled you are keeping the world a greener place. The Canadier 5PW can carry five adults. The middle two seats have compartments for storage. The canadier is very stable and perfect for a trip to true nature.

Length: 525 cm/17'2" | Width: 93 cm/36.6" | Weight: 50 kg/110.2 lb | Max. Cap.: 450 kg/992 lb | Material: CoreLite (Foam Core HDPE) | Colors: Green . Lime . red, | Sizes: 149 . 162

STABLE DESIGN AND MEDIUM RANGE CONSTRUCTION MAKE THESE CANOES PERFECT FOR TOURING ON LAKES AND EASY RIVERS.

VENTURE CANOES - RANGER 162 CRUISER W/ CANOE SKEG

We're not sure how it's taken over 10,000 years to come to this, but we're here now! When Pyranha introduced skegs to kayak designs beyond the sea kayak realm, they did so to help ease the learning curve for those developing their forward paddling and trying to go in a straight line; a skeg in this context makes even more sense on a canoe. A skeg for a canoe is also relevant in the same ways as it is for a sea kayak (i.e., to counteract lee cocking or weathercocking), and thanks to the fact that most canoes can be paddled facing in either direction, in an even more versatile manner.

Length: 490 cm/16'0" | Width: 90 cm/35.4" | Weight: 38 kg/83 lb | Max. Cap.: 450 kg/992 lb
| Material: CoreLite (Foam Core HDPE) | Colors: Dark Green . Fuego Orange . Olive Green .
Tahoe Blue | Sizes: One Size

[VENTURECANOES.COM](http://venturecanoes.com)

RTM - RIVIERA

An open-family canoe, the Riviera is equipped with two front and rear seats and a central bench that can accommodate two children. This sturdy and stable boat can be used sitting or kneeling. Inside, you immediately feel at ease and its design makes it very quickly sympathetic. Not to be missed for an introduction to canoeing! It is also recommended for professional use.

Length: 464 cm/15'2" | Width: 90 cm/35.4" | Depth: 37 cm/14.5" | Weight: 43 kg/94 lb |
Capacity: 2 adults + 2 children | Max. Cap.: 295 kg/650 lb

[RTMKAYAKS.COM](http://rtmkayaks.com)

RTM - RIVIERA XL

RIVIERA XL, longer for more pleasure to share, an additional central bench completes the equipment. The Riviera XL then accommodates up to four adults or two adults and four children. This product is designed exclusively to be propelled by human power (paddle).

Length: 500 cm/16'4" | Width: 100 cm/39.3" | Depth: 37 cm/14.5" | Weight: 48 kg/105 lb |
Capacity: 4 adults + 4 children | Max. Cap.: 350 kg/771 lb

[RTMKAYAKS.COM](http://rtmkayaks.com)

LETTMANN - TRAPPER

Our open canoes of the Trapper series are popular for their high-tilt stability. The long waterline enables a fast pace and good directional stability. The rails at the bottom improve the canoe's guidance, even on water in movement the Trapper stays on target. Due to its robust construction of PE, the Trapper is extremely durable and easy-care, the three-layer construction made of two layers of PE and an inner foam layer provides isolation, stiffness and makes it unsinkable. It is the perfect canoe for families, beginners and touring paddlers with a lot of luggage.

Length: 450-518 cm/16'1" | Width: 95-97 cm/35.4" | Weight: 39-50 kg/83.7 lb | Max. Cap.: 330-400 kg/992 lb |
Material: Superlinear HDPE | Colors: Green . Red . Blue | Sizes: 450 . 490 . 518

[LETTMANN.DE](http://lettmann.de)

PYRANHA KAYAKS - REACTR

The new performance creeker from Pyranha. The ReactR is the definitive, low-volume tail creek boat experience. This new design elevates the exhilaration of creeking, and perfectly blends the best of both the Ripper 2 and Scorch, while also drawing inspiration from the Firecracker and applying some of the lessons learned during the Rip-R Evo 2 F's extensive development process.

Length: 272 cm/8'9" | Width: 67 cm/26.4" | Weight: TBC kg | Max. Cap.: 90 kg/198 lb | Material: MZ3 (HDPE) | Colors: Rosella Red . Cotinga Blue | Sizes: S . M . L

PYRANHA.COM

SPADE KAYAKS - FULL HOUSE

The Spade Kayaks Full House rounds out our fleet and fills the space for a modern, high rocker creeker coming in at a length of 284 cm and about 360 L of volume. The overall width of 70 cm enables us to have a wide and stable platform without getting boxy or susceptible to side currents, curlers and the likes. We tweaked the waterline to strike a comfortable balance between speed, agility, and the ability to get your nose up on that pillow from all angles or skip that nasty hole right into oblivion. This one has your back when things get rough!

Length: 284 cm/9'3" | Width: 70 cm/27.5" | Volume: 360L

SPADEKAYAKS.COM

LETTMANN - MANTA L

The Manta is designed to be a highly competitive kayak for extreme races. At 272 cm it is within the allowed length limit and the most noticeable features are the aggressive bow rocker and stern spoiler. The purpose of the rocker on the bow is to lift and clear holes whilst keeping you on track & in control to move forward. The stern "spoiler" design assists in exiting holes by boosting the boat forward & out to maintain your momentum; great for speed in a race and equally useful for surviving gnarly hydraulics.

Length: 274 cm/9'0" | Width: 65 cm/25.6" | Weight: 19-21.5 kg/41.9-47.4 lb | Max. Cap.: 65-110 kg/143-243 lb | Material: Superlinear HDPE | UniColors: Yellow . Red Multicolor . Telemagenta/Skyblue . Skyblue/Blue . Yellow/Red . White/Lila | Sizes: Large

LETTMANN.DE

DRAGOROSI - DRX

Designed by the team of DragoRossi paddlers, the DRX is the brand new torrent kayak of the Italian company; ideal for paddlers in the weight range between 70 and 90 kg. Easy to use, it is suitable for both expert canoeists and beginners. Ideal for rivers with large volumes but also for high-slope creeks, it is incredibly fast and agile. Equipped with: padded thigh support, ergo safe footrest, adjustable padded seat, adjustable padded backrest, front and rear pillars, four handles, and drain plug.

Length: 274 cm/9'0" | Width: 69 cm/27" | Weight: 22 kg/48 lb | Max. Cap.: 95 kg/209 lb | Material: PE

DRAGOROSI.COM

JACKSON KAYAK - GNARVANA

Jackson Kayak's Gnarvana takes our favorite features of the top-selling Nirvana and adds a whole new level of performance. A super high-rockered bow, significant stern rocker, a wider center point with narrower ends, and a short waterline ensure that you feel high, dry and stable at all times. The float and rocker profile make this creek boat incredibly easy to maneuver and fun to paddle. Whether you are looking to run the hardest whitewater, or make it down your backyard run with ease, the Gnarvana is gonna rock your run. Now available in THREE SIZES!

Length: 259-282 cm/8'6"-9'3" | Width: 66-71 cm/26"-28.25" | Weight: 20.4-23 kg/45-51 lb | Weight Range: 45-109 kg/100-240 lb | Sizes S . M . L

JACKSONKAYAK.COM

SPADE KAYAKS - ROYAL FLUSH

The Royal Flush is an ultra-dynamic kayak that excels in deep water, but doesn't mind a low-water creek run either. If you like to pull the stick and swing the hips, the Royal Flush is your weapon.

Length: 274 cm/9' | Width: 68 cm/26.8" | Weight: 23 kg/51 lb | Volume: 335 L/74 G

SPADEKAYAKS.COM

SPADE KAYAKS - QUEEN OF HEARTS

With a width of 62 cm, a length of 250 cm, and a volume of approx. 245 liters, the Queen Of Hearts brings light paddlers and youngsters between 35 and 65 kg the fun and performance we love in Black Jack and Royal Flush.

Length: 250 cm/8'2" | Width: 60 cm/23.6" | Weight: 20 kg/44 lb | Volume: 245 L/54 G

Length: 267 cm/8'7" (MD) | Width: 68 cm/26.7" (MD) | Weight: 23 kg/50 lb (MD) | Max. Cap.: 100 kg/220 lb (MD) | Sizes: SM . MD . LG | Material: Super-Linear High-Density Polyethylene | Colors: Red . Lime . Orange

DAGGER.COM

PYRANHA KAYAKS - SCORCH

The kayak equivalent of a turbo-charged monster truck! The Scorch is the boat for dry-hair days on local creeks, dialing in moves and lines, and packing those lessons up and carrying them through to the wildest missions and expeditions you can dream of. The bow rocker eats everything in its path, chews it up underneath a planing hull with sharp rails that give you the gift of nimble maneuverability, and then spits it out the back in the form of skip-tastic speed. Get some!

Length: 267 cm/8'7" | Width: 63 cm/24.8" | Weight: 23 kg/50 lb | Max. Cap.: 90 kg/198 lb | Material: MZ3 (HDPE) | Colors: Rosella Red . Cotinga Blue | Sizes: S . M . L

PYRANHA.COM

PYRANHA KAYAKS - SCORCH X

Dave Fusilli's dream come true and made available for you! The Scorch X takes all the positives of the design and turns them up to 10 (including the length!). More dry rides. More skip. More speed. More fun. Dave Fusilli had been dreaming of this boat for a few years and hounding the Pyranha design team almost as long; the concept was refined for the regular Scorch size range, whilst the X offers the raw, unadulterated, boundary-smashing X-perience for the connoisseur. Skip and plane over everything with style and grace, feel unstoppable, and change the game. You won't know what you're missing until you try it.

Length: 302 cm/9'9" | Width: 64.5 cm/25.4" | Weight: 24.5 kg/54 lb | Max. Cap.: 115 kg/253 lb | Material: MZ3 (HDPE) | Colors: Rosella Red . Cotinga Blue | Sizes: One Size

PYRANHA.COM

EXO KAYAK - ZION CREEK L

Zion Creek is an innovative river kayak that stands out from all other models on the market. Right from the first strokes, you feel a sensation of speed and extraordinary maneuverability, almost as if you're not using a classic Creek kayak. The mastery of the kayak is exceptional, allowing you to handle every situation with great skill. The 'keel' front makes its presence known; simply tilting the Zion slightly initiates a turn. Even at low speeds, the response is immediate. Jumping over obstacles becomes child's play, and the kayak's stability remains consistently high. This river kayak is equipped with five metal-core handles, cockpit drain holes, an easily adjustable seat and backrest, plastic reinforcement rib with bottle holder/rope, and an impact-resistant footrest embedded in the pillar. These features provide exceptional solidity to the kayak, while the foam rear pillar ensures additional stability.

Length: 271 cm/8'9" | Width: 66 cm/25.9" | Weight: 23 kg/50,7 lb | Max. Cap.: 100 kg/220 lb | Material: HDPE | Colors: Red . Blue . Green . Yellow . Pink . Red-Black . Green-Black . Blue-Black . Yellow-Red . Pink-Black

EXOKAYAK.COM

LETTMANN - ROCKY M/L

With the Rocky we created the perfect symbiosis of our two favorite Creekers. It combines the Granite's stable and mild characteristics with the Manta's modern features. The new Rocky's stable hull combines a high pace with a lot of control. Beginners love trying to reach the eddies, more advanced paddlers will worship that while approaching the next waterfall. The rounded edges won't allow the rapids to push too hard and landings after high drops perform more smoothly. The high and voluminous bow allows a dry run even in the heaviest of rapids. Combined with its fat rocker the Rocky will emerge dry and smoothly after every heavy drop - making sure you're the one in charge!

Length: 262-272 cm/8'7"-8'11" | Width: 63.5-65.5 cm/25-25.8" | Weight: 18-21 kg/39.7-46.3 lb | Max. Cap.: 50-100 kg/110-220 lb | Material: Superlinear HDPE | UniColors: Yellow . Red Multicolor: . Telemagenta/Skyblue . Skyblue/Blue . Yellow/Red . White/Lila | Sizes: M . L

LETTMANN.DE

ZET - CROSS

After much anticipation, the team here at ZET is excited to present our latest and most innovative creek boat yet, The CROSS. A true all-river kayak The CROSS is a sporty, stable and easy to maneuver kayak. Its long, wide rocker has been designed to move easily through waves and holes and boof beautifully even at low speeds. The flat hull and edges of the CROSS make it highly responsive. It accelerates quickly and holds its line perfectly. The CROSS carves easily and has no 'catchy features' making it the perfect kayak for any whitewater purpose and environment. The CROSS is designed for paddlers in the weight range 70 to 100 kg. Its incredible stability makes it suitable not only for expert kayakers, but also for beginner and intermediate paddlers wanting to improve their skills.

Length: 274 cm/9'0" | Width: 63 cm/24.8" | Volume: 233 L/61.55 G | Weight: 18.5 kg/40.8 lb

ZETKAYAK.COM

SPADE KAYAKS - BLACK JACK

The Black Jack is a modern whitewater kayak that perfectly bridges the gap between a river runner and a creek boat. High volume and high rocker give it the dry line ability and buoyancy that a full-on creekboat needs.

Length: 256 cm/8'5" | Width: 66 cm/26.4" | Weight: 20 kg/44 lb | Volume: 285 L/63 G

SPADEKAYAKS.COM

PYRANHA KAYAKS - BURN III

An exceptional value whitewater kayak for clubs, centers, and individuals. Over the years, the Burn has become a staple of clubs, centers, and coaches, being a highly versatile platform, which supports paddler development and enables clear skills demonstrations, whilst still inspiring confidence. With an outfitting system pared down to the essentials for the flourishing whitewater paddler, you get everything you need at a great price.

Length: 250 cm/8'2" | Width: 65 cm/25.6" | Weight: 20 kg/44 lb | Max. Cap.: 80 kg/176 lb | Material: MZ3 (HDPE) | Colors: Rosella Red . Cotinga Blue | Sizes: M . L

DAGGER.COM

LETTMANN - THE HORNY POTATO 65/85

We did it! Our Machete's incredible features blew our minds, which inspired us to design a new creek boat. We "recycled" its flat hull and sharp edges. We added even more rocker and plenty more volume in the rear, which makes the THP a safe kayak in big water and after big drops. Skipping and Boofing made dry. Speaking of Boofing: Getting a kayak with edges as sharp as a machete to boof effortlessly wasn't so easy! But while it can cut water like a bush knife cuts liana, its central volume package in the rear can shoot you up the sky – if you want it to. Being in control of this creek boat is a piece of cake. Its sensitive characteristics allow easy corrections without slowing down and you can turn it on the spot, almost like a half slice. You wouldn't want to miss this: "The Horny Potato" – worth a shocking name!

Length: 265-274 cm/8'8"-9' | Width: 64.5-66.5 cm/25.4-26.2" | Weight: 18-21.5 kg/39.7-47.4 lb | Max. Cap.: 50-110 kg/110-243 lb | Material: Superlinear HDPE | UniColors: Yellow . Red Multicolor: . Telemagenta/Skyblue . Skyblue/Blue . Yellow/Red . White/Lila | Sizes: 65 . 85

LETTMANN.DE

PYRANHA KAYAKS - ION

Compact. Light. Reliable. From learning the basics to varied adventures, the Ion is the kayak equivalent of a multi-tool. A shorter boat is better suited to shorter journeys, as well as being more maneuverable and easier to transport and store; as the aim of the Ion is not to take on as committing adventures as its larger sibling, the Fusion, the outfitting has been kept functional but simple and light, to reduce not only the overall weight of the boat, but the complexity of getting it set up and ready to go.

Length: 274 cm/8'9" | Width: 76 cm/30" | Weight: 20 kg/44 lb | Max. Cap.: 115 kg/253 lb | Material: MZ3 (HDPE) | Colors: Rosella Red . Cotinga Blue | Sizes: S/M . M/L

PYRANHA.COM

PYRANHA KAYAKS - FUSION II

Don't get cross, get a crossover! With the Fusion II, you can combine both whitewater and touring to create bigger adventures. You might just be getting started in the sport and haven't settled on which type of kayaking you prefer yet, or perhaps you're looking for unrestricted adventures that combine the adrenaline rush of whitewater with a peaceful cruise across a lake; either way, the Fusion II has you covered, and even features a spacious hatch for overnight trips or a scenic picnic.

Length: 315 cm/10'3" | Width: 66 cm/25.9" | Weight: 23 kg/50 lb | Max. Cap.: 110 kg/242 lb | Material: MZ3 (HDPE) | Colors: Rosella Red . Cotinga Blue | Sizes: S . M . L

PYRANHA.COM

PYRANHA KAYAKS - FUSION DUO

Double the paddlers, double the fun! Share your love of the sport with your friends and family, whether they're new to it all or as enthusiastic as you are - much like the regular Fusion, the Fusion Duo is designed to take on both whitewater and touring and is more than capable in the vast majority of environments you'd typically venture into with a tandem kayak.

Length: 462 cm/15'1" | Width: 71 cm/28" | Weight: 42 kg/92.5 lb | Max. Cap.: 230 kg/507 lb | Material: MZ3 (HDPE) | Colors: Rosella Red . Cotinga Blue | Sizes: One Size

HALF SLICE

PLAYFUL RIVER RUNNERS THAT DO IT ALL, FOR MAXIMUM FUN ON EVERY CLASS OF WHITEWATER.

LETTMANN - PUFFY MACHETE 65/85

As one of many half-slice kayaks we wanted to make sure, there's something about our Machete that sticks out. And well, we're proud to say there's no half-slice as uncompromising as ours. We went with an incomparable rocker profile which allows the Machete to emerge in an extremely controlled manner. At the same time, the tail is more slicey enabling you to pirouette for hours.

Length: 260-270 cm/8'6"-8'10" | Width: 63-65.5 cm/24.8-25.7" | Weight: 18-20 kg/39.7-44.1 lb | Max. Cap.: 50-100 kg/110-220 lb | Material: Superlinear HDPE | UniColors: Yellow . Red Multicolor: . Telemagenta/Skyblue . Skyblue/Blue . Yellow/Red . White/Lila | Sizes: 65 . 86

2024

LIQUIDLOGIC - HOT WHIP

The Hot Whip is the ultimate playful half-slice, designed to surf, splat and squirt your way down the river, all while still allowing you to confidently run rivers. The combination of its big bow rocker and large hull platform keep you skipping through rapids and plowing over obstacles. The play is maximized with crisply tuned edges to effortlessly slide and carve on any wave and a small, winged stern to make squirts, stalls, and splats fun and easy. At just eight ft-long, the Hot Whip is highly maneuverable and easy to throw around. With style, comfort and versatility from surf to squirt, the Hot Whip will take your river play to the next level. Think of it as the ultimate play machine for the whole river. From play spots to rapids, the Liquidlogic Hot Whip allows you to play hard anywhere with confidence and control.

Length: 243.84 cm/8'0" | Width: 67cm/26.5" | Volume: 234 L/62 G | Paddler Weight: 54.4-108.86 kg/120-240 lb | Weight: 19.05 kg/42 lb | Cockpit Width: 52 cm/20.5" | Cockpit Length: 88.9 cm/35" | Materials: High Density Polyethylene | Colors: Gold . Venom . Shark Blue

ZET - NINJA

If you're looking for one boat that does it all, then look no further than the Zet Ninja. Our most versatile creek boat yet. The brainchild of extreme paddler Honza Choutka, the Zet Ninja is the boat to use when the rivers are steep and technical, when you want to win races or when you just want to have some fun throwing it down while mashing through rowdy bits in complete control.

Length: 274 cm/9'0" | Width: 68 cm/26.7" | Weight: 22 kg/48.5 lb | Max. Cap.: 110 kg/242.5 lb

ZETKAYAK.COM

PRIJON - PIKE

A river play kayak with an enormous fun factor. A fast and agile shape combines the dynamics of a river runner with the safety of a creeker for playing, cruising, and creeking in one boat. It has enough rocker and volume to climb up over big holes, a sporty stern, and a planing hull for when you find an inviting wave. The Pike accelerates rapidly, reaches speed with just a few strokes, can be paddled on a line and/or turned on the spot. In, through, and out of eddies, surfing and carving a pleasure.

Length: 273 cm/9'0" | Width: 61 cm/24" | Weight: 20 kg/44 lb | Volume: 250 L/66 G | Max. Cap.: 90 kg/198.4 lb

PRIJON.COM

PYRANHA KAYAKS - RIPPER 2

In the world of the 9'0 half slice, don't accept anything with a tail that isn't sharp enough to cut it. Ripper 2 has more bow rocker for a drier ride and drier surfs, a slightly wider hull to help you skip further out of more features, and a lower volume tail with softer sidewalls to make the tail easier to sink, whether you're looking to get vertical or lift the bow up and over a feature.

Length: 274 cm/8'9" | Width: 65.5 cm/25.7" | Weight: 20 kg/44 lb | Max. Cap.: 95 kg/209 lb
| Material: MZ3 (HDPE) | Colors: Rosella Red . Cotinga Blue | Sizes: S . M . L

PYRANHA.COM

SOUL WATERMAN - SUPER SKIP RR

Take the Super Skipper, and now add a pivotable tail so that you can tap into the current three-dimensionally to increase your level of control when conditions encourage this type of paddling.

Length: 273 cm/8'11" | Width: 67 cm/26.7" | Volume: 319 L/84 G | Weight: 19-21 kg/41.8-46 lb | Max. Cap.: 60-95 kg/130-210 lb

EXO KAYAK - ZION SLALOM L

Zion Slalom L, is a river kayak that combines ease of use with performance that no other River Play kayak can boast. It's fast, responsive, and offers excellent control, with an easily plantable stern. The new stern shape allows for different uses, especially in situations where you need to immerse the stern for boofs or tackle particularly technical passages. The river canoe Zion Slalom L is equipped with two metal-core handles, cockpit drain holes, an easily adjustable seat and backrest, plastic reinforcement rib with bottle holder/rope, an impact-resistant footrest embedded in the pillar, ensuring great stability and a foam rear pillar.

Length: 271 cm/8'8" | Width: 66 cm/26" | Weight: 23 kg/50.7 lb | Max. Cap.: 100 kg/220 lb
| Material: HDPE | Colors: Red . Blue . Green . Yellow . Pink . Red-Black . Green-Black . Blue-Black . Yellow-Red . Pink-Black

EXOKAYAKS.COM

SPADE KAYAKS - JOKER

If you like to charge through pushy waves and across boiling eddy lines at the speed of a barracuda, the Joker is for you. 274 cm long, with an optimized waterline and smooth but pronounced bow rocker, the Joker takes care of your need for speed while retaining maneuverability and precision. Turning on a dime when loading the stern is a breeze and pirouetting along eddy lines might become your new normal. A slightly narrower platform than the Bliss, but if you catch the right wave – oh boy! It features five handles, a solid footrest, and a full-sized cockpit for safety and easy exit.

Length: 274 cm/9'0" | Width: 65 cm/25.6" | Weight: 21 kg/46 lb | Volume: 260 L/57 G

RIVER PLAYBOATS

OFFERING A BIT MORE VOLUME AND STABILITY THAN A FREESTYLE BOAT, WHILE STILL ALLOWING THE PADDLER PLAY THEIR WAY.

PYRANHA KAYAKS - FIRECRACKER

Explosive, downriver freeride energy that everyone can enjoy! Set it off! The Firecracker is a compact half-slice to whip into every micro-eddy, snap onto every wave, and get vertical absolutely everywhere – no matter who you are, you'll be able to throw this around, sky-gaze, and have the comfort and confidence to nail that new move.

Length: 242 cm/7'9" | Width: 66 cm/25.9" | Weight: 19 kg/42 lb | Max. Cap.: 90 kg/198 lb | Material: MZ3 (HDPE) | Colors: Rosella Red . Cotinga Blue | Sizes: 232 . 242 . 252

PYRANHA.COM

PYRANHA KAYAKS - OZONE

Set for cult classic status - be a part of the story! Pyranha's long-awaited return to the river-running playboat market; the DNA of the Ozone flows from models such as the ProZone, InaZone, and Z.One. Unlock mid-rapid play spots, throw some shapes on an eddy line, and just generally enjoy every moment on the water.

Length: 226 cm/7'4" | Width: 63.5 cm/25" | Weight: 15 kg/33 lb | Max. Cap.: 90 kg/198 lb | Material: MZ3 (HDPE) | Colors: Rosella Red . Cotinga Blue | Sizes: S . M . L

PYRANHA.COM

SOUL WATERMAN - GLIDE

The semi-slice Glide takes river play to new levels of fun. Enough volume and rocker to make it an able river runner, while still playing as hard and gracefully as a full slice, you get the best of both worlds.

Length: 235 cm/7'9" | Width: 68 cm/26.8" | Volume: 249 L/66 G | Weight: 17-19 kg/37.5-42 lb | Max. Cap.: 72-108 kg/160-240 lb

SOULWATERMAN.COM

SOUL WATERMAN - DOMINATRIX

Reviving the original super slice boat, the new Dominatrix takes wave surfing, spinning and cartwheeling to all new levels, in this comfortable and predictable performance playboat.

Length: 232 cm/7'6" | Width: 63.5 cm/25" | Volume: 200 L/52 G | Weight: 14-15 kg/30-33 lb | Max. Cap.: 64-108 kg/140-240 lb

SOULWATERMAN.COM

SPADE KAYAKS - STARFIRE

The Starfire is the little brother of the Bliss. So again: leave no rock unplatted, no wave unsurfed, and no eddy line unskirted. For bigger paddlers it works as a playboat, smaller paddlers will get a pure freeride machine: But don't be afraid, it's an easy-to-paddle sit-in-an-have-fun kayak, which will bring a smile to your face immediately you put it on the water.

Length: 245 cm/8'0" | Width: 62 cm/24.4" | Weight: 17 kg/37.5 lb | Volume: 205 L/54 G

SPADEKAYAKS.COM

SPADE KAYAKS - BLISS

Our new downriver freeride machine! Leave no rock unplatted, no wave unsurfed, and no eddy line unsquirmed. The Bliss will take the fun on your favorite play run to a new level. A length of 245 cm and a planing hull mean it's perfectly suited for playful whitewater and spicing up your runs with freestyle moves. The bow rocker will keep your nose dry, and a spacious cockpit will enable you to sit comfortably for hours on the river. It features five handles, a solid footrest, and a full-sized cockpit for safety and easy exit. Quote Matze: "This is what I want to take to the Zambezi!"

Length: 245 cm/8'0" | Width: 65 cm/25.6" | Weight: 20 kg/44 lb | Volume: 235 L/52 G

SPADEKAYAKS.COM

DAGGER KAYAKS - REWIND ACTION+

The ultimate downriver playboat for paddlers of all abilities, the Rewind out delivers on what boaters need from a modern One-Boat kayak – piercing river running capabilities, speed and an excellent play platform – bringing new tricks to any run. Including Dagger's coveted Contour Ergo outfitting, roto step-out wall and volume adjustable bulkhead to create a fully secure and personalizable rider set-up.

Length: 267 cm/8'7" (MD) | Width: 65 cm/25.5" | Volume: 249 L/65.7 G | Max. Cap.: 100 kg/220 lb | Sizes: SM . MD . LG | Material: Super-Linear High-Density Polyethylene | Colors: Red . Green . Orange

DAGGER.COM

DAGGER KAYAKS - NOVA & SUPERNOVA

Dagger turns back the clock to a time when paddling was playing and playing was paddling. Loose on the waves, wild in the rapids and yet freakishly comfortable. Inspired by the full-slice models of the late '90s and brought up to date with modern features only Dagger can bring, the SuperNova opens up the realm of play to paddlers from small to large. Slice, surf and spin like never before, wherever there's water.

SuperNova Length: 232 cm/7'6" | Width: 68.5 cm/27" | Weight: 15.4 kg/40 lb | Max Cap.: 100 kg/220 lb | Nova Length: 220 cm/7'2" | Width: 63.5 cm/25" | Weight: 14.5 kg/32 lb | Max Cap.: 78 kg/171 lb

DAGGER.COM

RPI KAYAK - SIBIA

An excellent tool for the initiation of playboating. It is a versatile and forgiving boat that allows for fast progression in whitewater.

Length: 263 cm/8'6" | Width: 59 cm/23.2" | Weight: 14 kg/31 lb

FREESTYLE

SHORT BOATS ALLOWING PADDLERS TO SEND TRICKS IN HOLES AND WAVES

PYRANHA KAYAKS - GUIGUI PROD

A new generation of freestyle kayak. Guillaume and the GuiGui pro team have been hard at work refining their latest freestyle design, with an injection of enthusiasm from Pyranha, who will bring the design to life in plastic. Rather than being designed for whichever type of feature is hot that year, this boat is designed to excel on both waves and holes, whether you're trying to one-up your friends for fun or competition.

Length: 178 cm/5'8" | Width: 67 cm/26" | Weight: TBC kg | Max. Cap.: TBC kg | Material: MZ3 (HDPE) | Colors: Rosella Red . Cotinga Blue | Sizes: S . M . L

PYRANHA.COM

JACKSON KAYAK - ROCKSTAR V

Jackson Kayak is proud to continue our legacy of making the best playboats in the World with the Rockstar VI. The Rockstar V's goal was to make the best boat for every wave and hole on the planet. We combined the best qualities of our favorite older playboats into a sweet new shape that's a game-changer. The Rockstar V makes it easier to have more fun in all kinds of play environments: waves, holes, flatwater, and downriver are all easier and giggle-inducing. Whether you're just learning to get vertical or hoping to WIN the next World Championships, this is the boat.

Length (M): 172.7 cm/5'8" | Width: 66.35 cm/26.1" | Height: 37.8 cm/14.8" | Volume: 223 L / 59 G | Weight: 13.1 kg / 29 lb

JACKSONKAYAK.COM

JACKSON KAYAK - ROCKSTAR XS

Designed for our smaller freestylers, the Rockstar XS is a scaled-down version of our 2016 Rockstar series. Featuring one of the most user-friendly designs, the Rockstar XS falls between our Shooting Star and the smallest Rockstar, filling the gap for those outgrowing their kid kayak or simply needing a smaller ride. The lower volume and lighter weight of the XS models makes it much easier for our lighter paddlers to throw around.

Length: 157.5 cm/5'2" | Width: 60.3 cm/26.1" | Weight: 10.4 kg/23 lb | Weight Range: 32-59 kg/70-130 lb

JACKSONKAYAK.COM

JACKSON KAYAK - MONSTAR

The Monstar is an XL-sized playboat scaled-up from our popular 2010 All Star design. Given the surge of enthusiasm for playboating, and Jackson's commitment to accessibility, we wanted to give folks between 210 - 300 lb access to our 73 G playboat. The extra volume will give you a high ride for catching waves and the pop you need for loops, space godzillas and more! Think you don't fit in a playboat? Think again!

Length: 190.5 cm/6'3" | Width: 71 cm/28" | Weight: 16.7 kg/37 lb

JACKSONKAYAK.COM

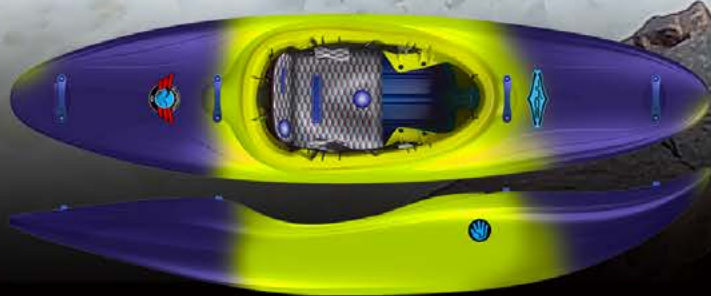

SKIP FURTHER SKIP FASTER

Stay high and dry Sunday. Tap into the currents Monday.
Two almost identical designs, that paddle the same.

But Different

SuperSkipper
Length 275 • 67.5 350ltr

SuperSkip RR
Length 273 • 67 319ltr

SOUL WATERMAN - NUGGET

Whitewater kayaking made accessible to kids with a hull design that encourages progression, in a SOT format that makes learning easy and trouble-free.

Length: 170 cm/5'7" | Width: 53 cm/21" | Volume: 88 L/823 G | Max. Cap.: 15-35 kg/34-80 lb

SOULWATERMAN.COM

SOUL WATERMAN - SUPERFLY

The best features of the SuperSkipper, sized down, with some surfing and spinning capability added, for the most progressive and predictable river running creeker ever made for kids.

Length: 210 cm/6'10" | Width: 61 cm/24" | Volume: 210 L/55 G | Max. Cap.: 27-58 kg/60-130 lb

SOULWATERMAN.COM

SOUL WATERMAN - BOOSTER

Whitewater kayaking made accessible to kids with a hull design that encourages progression, in a SOT format that makes learning easy and trouble-free.

Length: 170 cm/5'7" | Width: 53 cm/21" | Volume: 88 L/823 G | Max. Cap.: 15-35kg/34-80 lb

SOULWATERMAN.COM

SOUL WATERMAN - TERRIBLE TWO

Introduce your kids safely and excitingly. It handles like a single kayak, for maximum control and fun, the front cockpit is sized for kids, and close to you for safety.

Length: 287 cm/9'5" | Width: 68.5 cm/27" | Volume: 371 L/98 G | Weight: 23 kg/50.7 lb | Max. Cap.: 140 kg/300 lb

SOULWATERMAN.COM

DAG - SQUALY

The SQUALY is a school kayak, allowing the practice of the kayak activity from the youngest age. Suitable for young paddlers, it facilitates the acquisition of kayaking techniques for fun and safe navigation in calm water and also in rivers or artificial ponds. (Class II/III max). The SQUALY can accommodate an optional removable centerboard, allowing young paddlers to focus on propulsion and balance.

Length: 223 cm/7'1" | Width: 57 cm/22.5" | Depth: 30.5 cm/12" | Weight: 13 kg/28.6 lb | Ideal Paddler Weight: 30-40 kg/66-88 lb | Max. Cap.: 50 kg/110 lb | Hilory: 71 x 43 cm / 28" x 17"

DAG-KAYAK.COM

PYRANHA KAYAKS - REBEL

A really cool-looking, easy-to-paddle kayak that is as comfortable and as stable as possible. The Rebel will have kids out there looking like their paddling heroes whilst pulling new moves and impressing their friends. The lightweight, responsive hull and adjustable outfitting make this kayak ready for river adventures and provide top-end performance.

Length: 214 cm/7'0 | Width: 56 cm/22" | Weight: 12.5 kg/27.5 lb | Max. Cap.: 50 kg/110 lb | Material: MZ3 (HDPE) | Colors: Rosella Red . Cofinga Blue | Sizes: One Size

PYRANHA.COM

DAGGER KAYAKS - AXIOM 6.9 ACTION

A responsive and fun kayak for young river runners. The fast planing hull and full-length rail profile provide speed and develop control, with tapered stern for tail dips. Outfitted for comfort and learning boat control, the Axiom 6.9 is one for the young guns.

Length: 206 cm/6'7 | Width: 57 cm/22.5" | Volume: 148 L/39 G | Max. Cap.: 54 kg/119 lb | Material: High density polyethylene | Colors: Red . Lime . Orange
